Study Session
August 20, 2019

The Arapahoe County Board of County Commissioners typically holds weekly Study Sessions on Monday and Tuesday. Study Sessions (except for Executive Sessions) are open to the public and items for discussion are included on this agenda. Agendas (except for Executive Sessions agendas) are available through the Commissioners’ Office or through the County’s web site at www.arapahoeegov.com. Please note that the Board may discuss any topic relevant to County business, whether or not the topic has been specifically noticed on this agenda. In particular, the Board typically schedules time each Monday under “Committee Updates” to discuss a wide range of topics. In addition, the Board may alter the times of the meetings throughout the day, or cancel or reschedule noticed meetings. Questions about this agenda? Contact the Commissioners’ Office at 303-795-4630 or by e-mail at commissioners@arapahoeegov.com

Study Session Topics

10:00 A.M.  Department Director Update (BoCC Conference Room)
Bryan Weimer, Director, Public Works and Development
Board of County Commissioners

11:00 A.M.  *2018 CAFR Presentation (WHR)
Discussion of the 2018 Comprehensive Annual Financial Report and Audit Report

Request: Information/Direction

Erik Burge, Interim Accounting Manager/Senior Accountant, Finance
Todd Weaver, Budget Manager, Finance
Janet Kennedy, Director, Finance
John Christofferson, Deputy County Attorney

Documents:

2018 CAFR PRESENTATION BSR · STUDY SESSION.PDF
2018 ARAPAHOE COUNTY CAFR WEB.PDF

Break

1:00 P.M.  *Long Range Planning Committee Follow-Up Discussion (WHR)
Discussion of a request for direction from the Board of County Commissioners following
the initial recommendations of the Long Range Planning Committee, including whether to prepare a resolution for Board action

Request: Information/Direction

Michelle Halstead, Director, Communication and Administrative Services
Janet Kennedy, Director, Finance
Shannon Carter, Director, Open Spaces
Ron Carl, County Attorney

2:30 P.M.  Department Director Update (BoCC Conference Room)
Janet Kennedy, Director, Finance
Board of County Commissioners

* To Be Recorded As Required By Law
WHR - West Hearing Room

Arapahoe County is committed to making its public meetings accessible to persons with disabilities. Assisted listening devices are available. Ask any staff member and we will provide one for you. If you need special accommodations, contact the Commissioners’ Office at 303-795-4630 or Relay Colorado 711.
Please contact our office at least 3 days in advance to make arrangements.
Board Summary Report

Date: July 17, 2019

To: Board of County Commissioners

Through: Janet Kennedy, Finance Director

From: Erik Burge, Interim Finance Accounting Manager

Subject: Presentation of the 2018 Comprehensive Annual Financial Report and Audit Report

Direction/Information: This study session is informational only. Staff will provide a copy of the December 31, 2018 Comprehensive Annual Financial Report (CAFR) which includes the Auditor’s Report and the Single Audit Report, also known as the 2018 CAFR. The auditors will be presenting their report and be available for any questions.

Request and Recommendation
This study session is informational only regarding the CAFR for the Year-Ended December 31, 2018.

Background
Copies of the 2018 Comprehensive Annual Financial Report will be delivered to the Board of County Commissioners (BoCC) prior to the study session for their review.

Links to Align Arapahoe
The 2018 CAFR is in alignment with “Fiscal Responsibility” as it presents to the BoCC, the Elected Officials and Department Directors, citizens and other constituents of the County the County’s fiscal health and stewardship of tax payer money for fiscal year 2018.

Discussion
The County’s independent external auditors, CliftonLarsonAllen, LLP (CLA) have concluded their audit of the fiscal year 2018 CAFR. They have provided their auditor’s report along with their single audit reports and issued an “Unqualified Opinion” (clean opinion) over the 2018 CAFR. CLA did issue two findings in conjunction with their work over the 2018 CAFR and Schedule of Expenditure of Federal Awards and issued a management letter which will be reviewed by the Audit Committee and their findings presented to the BoCC at a later date.

Fiscal Impact
There is no fiscal impact – this is for informational and discussion purposes only.

June 27, 2019

To the Board of County Commissioners and to the Citizens of Arapahoe County, Colorado:

Colorado state law requires that every general purpose local government publish a complete set of audited financial statements. This report is published and hereby submitted to fulfill that requirement for the year ended December 31, 2018.

This report includes information on the financial activities of Arapahoe County (hereafter referred to as the County). Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position of the County as a whole and its various funds. All required disclosures necessary to enable the reader to gain an understanding of the County’s financial activities have been included.

The County financial statements have been audited by CliftonLarsonAllen LLP, a firm of licensed Certified Public Accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the County present fairly, in all material respects, the financial position of the County. The independent auditors have issued an unmodified (“clean”) opinion on the County’s financial statements for the year ended December 31, 2018. The independent auditors’ report is presented as the first component of the financial section of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditors’ report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of Arapahoe County

Arapahoe County, incorporated in 1902, is located in the north central part of the State. The County is located in the southeastern portion of the Denver metropolitan area and covers approximately 850 square miles. Arapahoe County, with the county seat located in the City of Littleton, is the third largest county in the State of Colorado with a population of about 650,000. A majority of residents live in the urbanized western part of the County, while other residents live in the rural, rolling farmlands to the east. The County contains all or part of the following cities and towns: Aurora, Bennett, Bow-Mar, Centennial, Cherry Hills Village, Columbine Valley, Deer Trail, Englewood, Foxfield, Glendale, Greenwood Village, Littleton and Sheridan. There are also nine school districts and approximately 420 local improvement and service districts within the County.
A five-member Board of County Commissioners (BOCC) serves as the legislative, policy-making and administrative body governing the unincorporated area of the County. The Commissioners serve four year terms and are considered full time employees. The County does not have a County Manager or Administrator. The Commissioners are elected from individual districts within the County. The Board currently includes:

Kathleen Conti ................................................................. District 1
Nancy N. Sharpe, Finance Officer .................................................. District 2
Jeff Baker, Chair ............................................................... District 3
Nancy Jackson, Chair Pro Tem .................................................. District 4
Bill L. Holen ................................................................. District 5

Departments overseen by the Board of County Commissioners include: BOCC Administration, Communication Services, Community Resources, County Attorney, Facilities and Fleet Management, Finance, Human Resources, Human Services, Information Technology, Public Works and Development, Department of Strategy and Performance, and Open Spaces.

In addition to the BOCC there are six elected officials that serve the County in specific areas. These positions are independent of the BOCC in their duties. The BOCC does have budgetary oversight for these departments.

PK Kaiser ................................................................. Assessor
Sue Sandstrom ............................................................... Treasurer
Dr. Kelly Lear .............................................................. Coroner
Joan Lopez ................................................................. Clerk and Recorder
George Brauchler ......................................................... District Attorney
Tyler S. Brown .......................................................... Sheriff

The Public Trustee is appointed by the Governor and is responsible for processing transactions related to real property located within the County including the release of deeds and the processing of foreclosures. This office is a fiscally separate and independent agency.

Budget Process

The budget helps to ensure that the County's financial strength and integrity continue to be maintained and enhanced. The budget also supports continuous customer service efforts to foster efficiency, cost effectiveness, and excellence in the provision of services to the Citizens of Arapahoe County.

The County constructs its budget on a calendar year as required by Part 1 of Article 1 of Title 29 of the Colorado Revised Statutes, which governs the budget process of Colorado counties. On or before August 15th, elected officials and department directors submit revenue estimates and expenditure requests to the Budget Division of the Finance Department. On or before August 25 of each year, the County Assessor submits the current total assessed valuations for all taxing entities in the County and the factors needed to compute the statutory property tax revenue limits. Based on this information and following a review process, the Budget Division submits a recommended structurally balanced budget to the Board of County Commissioners through the Executive Budget Committee on or before October 15. The Executive Budget Committee is composed of selected representatives from the elected officials and department directors who review preliminary budget issues and requests and present their recommendations to the Board of County Commissioners. The County currently prepares budgets on an annual basis.
Comprehensive Annual Finance Report (CAFR) Transmittal

All mill levies must be certified by the BOCC on or before December 22nd of each year. Prior to the beginning of the next fiscal year, the BOCC enacts a budget adoption resolution and an appropriating resolution to approve the total budget and departmental expenditures. The BOCC may make no contract and no liability against the County can be created by any County officials unless an appropriation has been made.

In addition, neither the BOCC nor any County official can expend money for any of the purposes set out in the appropriation resolution in excess of the amount appropriated. In the case of an emergency or a contingency that was not reasonably foreseeable, the BOCC may authorize the expenditure of funds in excess of the budget by a resolution adopted by a majority vote.

Local Economy

Arapahoe County is located in the southeast portion of a major metropolitan area. Its economy is greatly influenced by the economy of the state and the entire Denver metro area. The local economy does generally follow national economic trends. The County has a diversified economic base with numerous city and other local governments, a large general aviation airport, a large military base, many schools, shopping centers, health care facilities and high tech businesses contributing to the activity. Growth in residential and commercial construction, the real estate market, employment, consumer spending, and inflation all play a role in the local economy.

Growth in the Colorado economy continues but due to the continued lower energy prices and slower growth in home prices, this growth rate is now on par with national trends rather than exceeding them. Over the past few years, Colorado’s strong labor market and desirable quality of life has driven population growth, increases in wages and consumer spending and is reflected in a very active real estate market with increasing home prices and construction. Colorado’s labor market continues to add jobs, albeit at a slower rate, with the largest gains in the professional and business services, scientific and technical services, and the leisure and hospitality sectors. For many employers, the tight labor market is making finding skilled labor difficult. Colorado’s continued economic growth will depend upon factors such as growth in wages, housing affordability, and the impact of international trade and energy prices businesses and consumers.

Colorado’s unemployment rate in 2019 is estimated to be 3.6% and will continue to be lower than the national rate. The economic recovery has resulted in increasing home prices that outpaces most of the nation and the level of residential construction is struggling to keep up. While home prices have begun to moderate, many other economic indicators for Colorado mirror that of the national economy with regard to income and wage growth as well as consumer spending. While the overall growth during the past few years has generated additional revenue, the growth in Colorado and Arapahoe County also results in additional expenses for local governments.

Long-term Financial Planning

The County currently projects revenues, expenditures and available fund balances for 5-year periods to help determine its financial position and plan for the future. It is the County’s intent each year to structurally balance the General Fund operating budget, meaning that budgeted ongoing expenditures do not exceed budgeted ongoing revenues. The available fund balance at the end of one year (in excess of policy reserves) can then be used to budget for capital projects and other one-time uses in the following year.

The Executive Budget Committee (EBC), after a thorough review of the County’s financial position, has set the following priorities when planning for the future.

- Maintaining a structurally balanced General Fund operating budget
- Maintaining the Total Compensation philosophy in order to recognize and retain a quality workforce
- Continuing the capital improvement program with available resources
- Attempting to meet growing needs despite limited revenue growth
- Looking ahead to address long-term budgetary issues
In planning for 2019, the General Fund budget is structurally balanced with a $2.1 million operating surplus but also includes a reduction in fund balance of $6.5 million. This represents a planned use of fund balance for one-time uses such as equipment and vehicles for new law enforcement positions as well as a transfer of $6.1 million to the Capital Expenditure Fund for capital projects. This accomplishment was the result of measures implemented by the Executive Budget Committee and the Board of County Commissioners with the cooperation of all County departments and elected offices. The 2019 adopted budget funded a 3.3% performance-based salary increase pool for employees, a slight decrease from 3.5% in 2018. This year’s merit increase was also accompanied by a market increase to keep County salaries and salary structure on par with comparative data with similar local organizations while still adhering to the County’s commitment to a structurally balanced budget.

For 2019, the Executive Budget Committee reviewed trends in revenues and expenditures, considered the addition of the total compensation recommendations, and determined that with the current revenue projection for 2019 there could be additions to the operating budget but such additions would need to be limited in order to structurally balance the budget in future budget years as well. The Executive Budget Committee started with a baseline budget and after careful analysis recommended only those budget packages that the Committee felt were significant enough to be included in the upcoming budget.

For 2019, the County has budgeted $12.8 million in capital improvements which includes replacement of the Detention Center door control and intercom system ($3.1 million), contributing toward Phase 2 of the Detention Center Infrastructure Improvements ($1.7 million), Iliff Avenue Improvements ($1.7 million), the 6th Avenue Crossing project ($1.5 million), Peoria Salt Dome Replacement ($1.2 million), Gun Club Avenue project ($500,000), and other facility projects ($1.0 million), other road/streets/drainage projects ($1.3 million), Sheriff/Public Safety Projects ($505,000), and Technology/Communication Projects ($255,000).

Prepared for the Future

Property tax is the largest source of revenue to the County, comprising 45% of overall County revenues. Per State regulations, property assessments are conducted only every other year with the impact on property tax collections occurring only in even-numbered years. In intervening years such as 2018, growth in property tax collections is limited to new construction and other additions and subtractions and does not take into account changes in property values. Additionally, the County continues to be restricted by most provisions of the Taxpayers Bill Of Rights (TABOR), an amendment to Article X of the Colorado Constitution that limits the County’s property tax revenue growth rate to the sum of the estimated inflation for the Denver metro area for that budget year plus the growth of new construction in the prior calendar year. The major impact of TABOR is that the County may not be able to retain all the property tax revenue it could collect.

Due to this growth restriction, the County’s property tax revenue growth from 2018 to 2019 is limited to 4.84 percent, which is the sum of the estimated inflation of 3.30 percent and new construction growth (“local growth”) of 1.54 percent in the 2018 assessment. A resulting temporary tax credit of 2.604 mills will be provided to taxpayers to adjust for the portion of the 15.821 base mill levy that cannot be collected under the provisions of TABOR. The County is permitted to extend a levy to recover property taxes refunded and abated in prior years to adjust for errors in property assessments and in 2019, this levy is 0.093 mills for about $869,000, and is included in the County’s total levy. The 2019 adopted budget factors in the increase in assessed value and the current projections for inflation and as a result, the County’s property tax revenue is projected to increase from $124.4 million in 2018 to $130.6 million. The total levy for the County will be set at 13.301 mills, up from 12.817 mills as the temporary tax credit decreases from 3.072 mills to 2.604 mills to remain within the TABOR revenue limitations and below the maximum levy of 15.821 mills.

The County continues to make more effective use of its revenues through its Align Arapahoe strategic and performance management program, business process improvement efforts, stricter budgeting practices, technological advances, cost-sharing partnerships and creative service delivery methods. But the success of all these measures has also meant less and less unspent funds are available at the end of each year, funds which have traditionally been used to fund subsequent years’ Capital Improvement Projects and other one-time operational needs.
Comprehensive Annual Finance Report (CAFR) Transmittal

A continuing question is whether the current trend in limited property tax growth will be sufficient to consistently fund ongoing operations and capital needs and meet the growing service needs of a growing constituency. Foremost among the capital needs is the County’s aging infrastructure both facilities and transportation infrastructure. Over the past two years, the BOCC-directed Long Range Budget Committee has analyzed the County’s financial condition, long-term budget challenges and presented potential solutions. Among the potential solutions would be raising additional revenue to meet the significant needs such as improvements to the Arapahoe County Justice Center and detention facility. During 2019, the County will weigh the challenges and options and work on how to move forward in implementing solutions to these issues.

Awards and Acknowledgements

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Arapahoe County has received a Certificate of Achievement for the last 31 consecutive years (fiscal years ended 1987 – 2017). We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

I would like to express my appreciation to the Interim Accounting Manager, Erik Burge, and the department accountants and analysts: Tanya Lepler, Loren Kohler, Jennifer Bennett and Nandu Giri, who contributed greatly to the audit and the preparation of the CAFR. Their professionalism, dedication, and efficiency made the preparation of this report possible. Jon Rajewich, Mary Lisa Bugel, Debbie McCarty, Andrew Barranco, Joe Cornejo, Stephen Krusoe and Jennifer Leake also deserve recognition for their outstanding work in managing the County’s financial system (SAP). I would also like to thank each of the Department Directors, Elected Officials and their staff for their cooperation allowing our staff to successfully account for, monitor and report on the financial activity of Arapahoe County.

Finally, I wish to thank the Board of County Commissioners for their leadership and support, without which the preparation of this report and the continued success of the Finance Department would not be possible.

Respectfully,

Janet J. Kennedy, CPA  
Director of Finance  
Arapahoe County, Colorado
Certificate of Achievement for Excellence in Financial Reporting

INDEPENDENT AUDITORS' REPORT

Board of County Commissioners
Arapahoe County, Colorado

Report on the Financial Statements
We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Arapahoe County, Colorado, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the entity’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Arapahoe County Public Airport Authority or Arapahoe County Water and Wastewater Authority, both of which are discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for Arapahoe County Public Airport Authority and Arapahoe County Water and Wastewater Authority, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Arapahoe County Water and Wastewater, a discretely presented component unit, was not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.
Opinions
In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arapahoe County, Colorado as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparisons for the General Fund, the Social Services Fund, and the Open Spaces Sales Tax Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters
Required Supplementary Information
Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages B-4 - B-18 and required supplementary information on pages C-63 and C-64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information
Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Arapahoe County, Colorado’s basic financial statements. The Combining and Individual Financial Statements and Schedules, the Statements of Component Unit without Separately Presented Financial Statements, and Other Supplementary Information, as listed in the table of contents, (collectively, the Supplementary Information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Supplementary Information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, combining and individual financial statements and schedules, the statements of component unit without separately presented financial statements and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.
Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 27, 2019, on our consideration of Arapahoe County, Colorado's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Arapahoe County, Colorado's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Greenwood Village, Colorado
June 27, 2019
In this Management's Discussion and Analysis (MD&A) section of the Comprehensive Annual Financial Report (CAFR), we provide readers with a narrative overview and analysis of the financial activities of Arapahoe County, Colorado (the County) for the fiscal year ended December 31, 2018. When analyzing financial activities of the current fiscal year, it is useful to compare current fiscal year information with comparable information of the previous fiscal year. This discussion and analysis is also intended to serve as an introduction to the County's basic financial statements. We encourage readers to consider the information presented here in conjunction with the information presented in the letter of transmittal and basic financial statements to enhance their understanding of the County's financial activity and performance.

FINANCIAL HIGHLIGHTS

- The County’s assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by $697,664,915 (net position). Of this amount, $727,501,989 relates to capital assets or is restricted in how it may be used. The unrestricted portion is ($30,739,972). This balance is negative due to the reporting of the net pension liability. See Note 14 – Retirement Plan on page C-51 for more information.
- Total net position increased by $2.6 million during fiscal year 2018.
- Total Net Pension Liability increased by $13.1 million during fiscal year 2018.
- At the end of the current fiscal year, the County’s governmental funds reported combined fund balance of $170.6 million, an increase of $11.4 million from 2017.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The Basic Financial Statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements. In addition to the basic financial statements, this annual report also contains required supplementary information, other supplementary schedules and information, a statistical section, and a compliance section.

Government-wide Financial Statements

The government-wide financial statements provide readers with a long-term and broad overview of the County's finances as a whole in a manner similar to a private sector business. The government-wide financial statements use an economic resource measurement focus and the full accrual basis of accounting to present this overview in the Statement of Net Position and the Statement of Activities. Therefore, certain expenditures that are recorded in the governmental fund financial statements are either deferred or capitalized with amortization or depreciation in the government-wide financial statements. Long-term liabilities, deferred inflows of resources, revenues and related assets and deferred outflows of resources not reported in fund financial statements are recorded in the government-wide financial statements independent of the cash flows related to these items. Fiduciary fund assets held by the County for other parties either as trustee or as agent are not included in the government-wide financial statements because they cannot be used to finance the County's own operating programs.
The Statement of Net Position presents the financial condition of the County as a whole at the end of the fiscal year by presenting information on all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between these components is reported as net position. Over time, increases or decreases in net position serve as a useful indicator of whether the County's financial condition is improving or deteriorating. If the County's net position has increased, the financial condition of the County has improved. If the County's net position has decreased, the financial condition of the County has deteriorated. The Statement of Activities shows why the financial condition of the County as a whole has changed since the beginning of the fiscal year by presenting information showing how the government's net position has changed during the fiscal year. In the Statement of Activities, all changes in net position are reported as soon as the underlying economic event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements include not only the County, the general purpose government, but also legally separate and special purpose governmental entities, for which the County is financially accountable and with which the County has a significant relationship. These legally separate and special purpose governmental entities are known as component units. Component units are reported in the financial statements as either blended or discretely presented component units. The financial activity of blended component units can be objectively viewed as an extension of the general purpose government because their governing bodies are substantively the same and there is a financial benefit or burden relationship between the primary government and the component unit. Additional criteria for blending include whether or not the component unit provides services entirely or almost entirely to the primary government or otherwise exclusively or almost exclusively benefits the primary government even though it does not provide services directly to it. When the component unit’s financial activities are blended into the County’s financial statements, the activities are presented as if they were executed by the general local government. The balances of the blended component unit’s financial statements are merged with the similar balances of the general purpose local government in a manner that prevents the balances of the blended component unit and the local primary government from being separately identified. The merged financial statements of the general purpose government and the blended component units are identified in the government-wide financial statements as the primary government. The following component units have been blended into the County’s primary government in the government-wide financial statements:

- Arapahoe County Building Finance Corporation
- Arapahoe County Law Enforcement Authority
- Arapahoe County Housing Authority
- Arapahoe County Recreation District
- Arapahoe County Water and Wastewater Public Improvement District
- Arapahoe County Retirement Trust Fund

The financial information for component units that should not be blended into the financial statements of the primary government are presented separately from the financial information presented for the primary government as discrete components units of the County in the government-wide financial statements. The following component units have been presented as discrete component units in the County’s government-wide financial statements:

- E-911 Authority
- Arapahoe County Airport Authority
- Arapahoe County Water and Wastewater Authority

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the County’s component units are presented in Note 1 – Summary of Significant Accounting Policies on page C-21.
On the Statement of Net Position, columns are used to separate the financial information of the primary government and the discretely presented component units. On the Statement of Activities, both columns and rows are used to separate the financial information of the primary government and the discretely presented component units.

The government-wide financial statements can be found on pages C-1 to C-3 of this annual report.

**Fund Financial Statements**

A fund is a fiscal and accounting entity with a self-balancing set of accounts used to record financial resources with related liabilities and residual equities segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related regulations, requirements, restrictions or limitations.

All of the funds of the County can be divided into three categories:

- Governmental Funds
- Proprietary Funds
- Fiduciary Funds

**Governmental Funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, because governmental fund financial statements measurement focus is on near-term inflows and outflows of current financial resources, as well as on balances of current financial resources available at the end of the fiscal year, these financial statements provide information about the ability of the fund to finance current activities and operate within the planned appropriations and budgets. Such information may be useful in evaluating a government's ability to meet its near-term financing and appropriation related requirements.

All current financial resources contained in a governmental fund, other than the General Fund, are available only for carrying on the specific activities or attaining the certain objectives in accordance with special regulations, restrictions or limitations related to the purpose for which these funds were created. Therefore, all of the current financial resources contained in these governmental funds are considered to be assigned to the purpose for which the fund was created. The General Fund is used to account for all governmental fund activities that are not specifically accounted for in the other governmental funds. Therefore, the General Fund is one of the governmental funds that contain positive unassigned funds in addition to assigned funds in its fund balance.

Current financial resources, the measurement focus of the governmental fund financial statements, are cash and near-cash assets reduced by short-term debt (spendable/appropriable resources) that are available during the fiscal year and 60 days after the end of the fiscal year. These funds financially support the purpose of carrying on specific activities or attaining certain objectives in the current fiscal year in accordance with the special regulations, restrictions or limitations that define the fund.

Governmental fund accounting uses the modified accrual basis of accounting. This basis of accounting records and reports the inflows and outflows of current financial resources (spendable/appropriable resources) under the special regulations, restrictions or limitations that define the fund. By focusing on current financial resources, modified accrual accounting provides additional information related to the regulations, restrictions or limitations that define the fund and emphasizes the need for short-term financing and the generation of spendable resources.
Because the focus of fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds in fund financial statements with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. A reconciliation of the total Governmental Fund Balances in the fund financial statements balance sheets to the Net Position of Governmental Activities in the government-wide financial statements is provided following the Balance Sheet of Government Funds in the fund financial statements. A reconciliation of the Net Change in Fund Balances - Total Governmental Funds in the fund financial statements to the Change in Net Position of governmental activities in the government-wide financial statements is provided following the Statement of Revenues, Expenditures and Changes in Fund Balances in the fund financial statements. These reconciliations provide explanations of differences between these balances and facilitate an understanding of the differences between the measurement focuses and basis of accounting used for preparing the fund financial statements and the government-wide financial statements.

In this annual report, the County reports on twenty-four individual governmental funds. Information is presented separately in the fund financial statements for the General Fund, Social Services Fund, and Open Spaces Sales Tax Fund, all of which are considered major funds. Individual fund balance sheets for these major funds are presented in the Balance Sheet Governmental Funds and individual fund income statements in the Statement of Revenues, Expenditures and Changes in Fund Balance. The remaining twenty-one governmental funds are combined into a single, aggregated presentation as Other Governmental in the fund financial statements in the Basic Financial Statements section of this annual report.

The basic governmental fund financial statements can be found on pages C-4 to C-14 of this annual report. Financial information related to the individual non-major funds is provided on pages D-1 to D-44 and D-62 to D-63 in the Combining and Individual Fund Financial Statements and Schedules Section of this annual report.

Proprietary Funds – The fund financial statements contain two types of proprietary funds: enterprise funds and internal service funds. Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. The County does not have any enterprise funds.

Internal service funds are used to report any activity that provides goods and services to other funds of the primary government or component units on a cost reimbursement basis. The County uses five internal service funds to account for the following activities: the accumulation and allocation of equipment and materials costs, employee benefits, and self-insurance activities. The measurement focus for internal service funds is economic resources and the basis of accounting used is full accrual accounting. The revenue and expenses of the internal service funds have been eliminated in the government-wide Statement of Activities. The balance sheets of the internal service funds have been merged in the government-wide Statement of Net Position.

The five internal service funds are combined into a single, aggregated presentation as Governmental Activities – Internal Service Funds in the fund financial statements in the Basic Financial Statements section. These statements can be found on pages C-15 to C-17 of this annual report. Financial information related to the individual internal service funds is provided on pages D-45 to D-52 in the Combining Financial Statements and Schedules section of this annual report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not included in the government-wide financial statements because the resources of these funds are not available to support the County's programs or operations. The County uses four fiduciary funds: one trust fund and three agency funds.
The activity of the Arapahoe County Retirement Trust is presented in the Basic Financial Statements section of this annual report.

The total of the three agency funds are combined into a single, aggregated presentation as Agency Funds – Total in the fund financial statements in the Basic Financial Statements section of this annual report. The Agency Funds – Total presentation does not include a statement presenting the activities that change the agency funds net position as part of the Basic Financial Statements. The basis of accounting for the agency funds is full accrual accounting. Financial information related to the individual agency funds is provided on pages D-53 and D-54 in the Combining Financial Statements and Schedules section of this annual report.

A Statement of Fiduciary Net Position is presented in the fund financial statements for both the Arapahoe County Retirement Trust and the Agency Funds. A Statement of Changes in Fiduciary Net Position is presented for only the Arapahoe County Retirement Trust in the fund financial statements. The fiduciary fund financial statements can be found on pages C-18 and C-19 of this annual report.

Notes to the Financial Statements

The notes to the Basic Financial Statements provide a more detailed explanation of some of the information contained in the financial statements that is essential to gain a better understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages C-21 through C-61 of this annual report.

Budgetary Comparisons

The County adopts an annual appropriation budget for all of its governmental funds. A budgetary comparison statement has been provided for the General Fund and all major special revenue funds on pages C-12 to C-14 of this annual report. Budget-to-actual comparisons for each of the remaining governmental funds are provided on pages D-24 to D-44 and D-62 to D-63 in the Combining Financial Statements and Schedules and Other Supplementary Information Sections of this annual report.

Analysis of Government-wide Financial Position

As of December 31, 2018, the County’s primary government assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by $697.7 million. This is an increase of $2.6 million over the net position at December 31, 2017 of $695.1 million.

The County’s net investment in capital assets, $662.9 million (95.0% of net position) in 2018 and $661.4 million (95.2% of net position) in 2017, is the largest portion of the County’s primary government net position. Capital assets include land, land improvements, bridges, water and sewer lines, roads, buildings, building improvements, leasehold improvements, vehicles, furniture and equipment. These capital assets are used to provide services or utilities to citizens. Consequently, they are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional $65.5 million (9.4% of net position) in 2018 and $67.8 million (9.8% of net position) in 2017 represents restricted net position, resources that are subject to external restrictions on how they may be used. Included in this category are statutory reserves required by the State of Colorado, debt service reserves, and accumulated revenues that may only be used for specific voter-approved projects.
The remainder of the County’s primary government net position, ($30.7 million) (4.4% of net position) in 2018 and ($34.1 million) (4.9% of net position) in 2017 represents unrestricted net position that could otherwise be used to meet ongoing obligations to citizens and creditors when positive. The negative balance of unrestricted net position at the end of 2018 decreased by $3.4 million (10.0%) from the balance at the end of 2017 due primarily to the increase in the net pension liability offset by the increase in current assets from property tax revenues.

Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future period. In 2018, the County has two items that qualify for reporting in this category. The first results from the loss on refunding on bonds reported in the government-wide Statement of Net Position. This amount, $0.9 million, resulted from the difference in the carrying value of refunded debt and the reacquisition price of the refunding debt. The second is pension outflows totaling $44.7 million, which is comprised of $10.4 million of contributions made subsequent to measurement date, $20.6 million in changes in assumptions, $4.4 million in differences between expected and actual experience, and $9.3 million in the difference between projected and actual earnings.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The County has two items that qualify for reporting in this category during 2018. The first is property tax revenue, $160.7 million, which is deferred in the year the taxes are levied, 2018, and measurable and recognized as an inflow of resources in the period they are collected, 2019. The second is pension inflows totaling $13.7 million, which is comprised of $1.5 million of differences between expected and actual experience and $12.2 million of differences between projected and actual earnings.

Governmental activities saw an overall increase of $8.8 million in total assets. This includes an increase of $6.9 million in property tax receivable as property values increased and an increase of $8.8 million in current assets, due partially to increasing interest rates during 2018. These increases were offset by a decrease in net capital assets of $6.9 million mainly from depreciation.

Liabilities had an overall decrease of $0.9 million compared to the prior year. This was due primarily to a decrease of $11.0 million in long-term debt from regularly scheduled debt service payments and an increase in the net pension liability of $13.1 million (see Note 14 – Retirement Plan).

**Analysis of Government-wide Results of Operations**

Government-wide revenues for the County were greater than expenses by $2.6 million during fiscal year 2018 while government-wide expenses for fiscal year 2017 were greater than revenues by $0.6 million. Revenues in the government-wide Statement of Activities for 2018 increased $15.5 million (4.5%) from revenues for 2017. In program revenues, charges for services increased $5.7 million mainly due to increases in building permits and the City of Centennial contract and in general revenues, property taxes increased $6.5 million as a continued result of higher assessed valuations.
The changes from fiscal year 2018 to 2017 in the revenue and expense categories in the condensed comparative government-wide Statement of Activities:
The comparison of the component sources of revenue used in the condensed comparative government-wide Statement of Activities for 2018 and 2017:
Expenses in the government-wide Statement of Activities for 2018 increased $12.3 million (3.6%) from 2017. This is mainly the result of an increase in Public Safety and Health & Welfare expenses from salaries and benefits from additional positions, annual raises and market adjustments.

FINANCIAL ANALYSIS OF THE GOVERNMENT’S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County’s governmental funds reported combined ending fund balances of $170.6 million, an increase of $11.4 over the prior year’s fund balance. Of the total balance, $44.2 million (25.9%) represents unassigned fund balance. $27.2 million (16.0%) is classified as assigned by the Board of County Commissioners for the purposes of the fund. $33.5 million (19.7%) is classified as committed by Board Resolution. $65.5 million (38.4%) is classified as restricted by an outside party for a specific purpose. The remaining fund balance, $.1 million (.06%) is classified as non-spendable (inventory and prepaid amounts).

At the end of fiscal year 2018, the County had three major governmental funds: the General Fund, the Social Services Fund and the Open Spaces Sales Tax Fund. These major funds are reported separately in the County’s basic financial statements.

General Fund

This fund is the primary operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was $45.0 million while total fund balance was $61.5 million.

As a measure of the General Fund’s liquidity, it is useful to compare the total of the assigned and unassigned fund balance at the end of fiscal year 2018 to the budgeted total program revenues, transfers in, expenditures, and transfers out for the following fiscal year, 2019. The total of the assigned and unassigned fund balance of the General Fund at the end of fiscal year 2018 is $54.2 million, less the budgeted use of this fund balance in 2019, $6.5 million, is $47.7 million. This represents 25.1% of the adopted budget for General Fund total program revenues and transfers-in for 2019 of $189.6 million or 24.3% of the adopted budget for General Fund total program expenditures and transfers-out of $196.2 million. This indicates that an approximate 24.3% combination of budgeted revenue shortfalls and/or expenditures over budget could be sustained during 2019 before the liquidity of the General Fund is compromised.
The County’s budget is prepared according to Colorado statutes. The most significant budgeted fund is the General Fund. Notable differences between the original budget and the final amended budget are summarized as follows:

- $1.4 million increase in Public Safety for increased crime lab, professional service, and salaries and benefits expenditures.
- $0.9 million increase in charges for services partially due to more funding from the City of Centennial for public safety service and higher property tax collection fees.
- $0.9 million increase in miscellaneous revenue due to higher detention reimbursements.
- $0.5 million increase in Clerk & Recorder’s Office for professional service expenditures.
- $0.5 million increase in Public Works for salaries and benefits, credit card processing fees and capital maintenance expenditures.

Actual General Fund revenues and other financing sources of $189.1 million was greater than the General Fund final appropriated revenues and other financing sources of $183.3 million by $5.8 million (3.2%). This was primarily due to the increase in investment earnings and additional revenue from detention programs.

Actual General Fund expenditures and other financing uses of $185.7 million was less than the General Fund final appropriated expenditures and other financing uses of $193.0 million by $7.3 million (3.8%). This difference was mainly from cost savings in Information Technology and Public Safety project expenditures.

The total revenue and other financing sources in the General Fund increased by $9.6 million from $179.5 million in fiscal year 2017 to $189.1 million in fiscal year 2018 (5.4%). This was mainly due to the increase in property taxes and an increase in the City of Centennial Public Safety contract. The total expenditures and other financing uses in the General Fund increased by $12.1 million from $173.7 million in fiscal year 2017 to $185.7 million in fiscal year 2018 (6.9%). This increase was a result of higher salaries and benefits and transfers for capital expenditures.

**Social Services Fund**

This fund is mandated by the State of Colorado and is used to account for participation by the County in Federal and State public welfare programs. The fund balance remained consistent at $9.9 million at the end of fiscal year 2018 and fiscal year 2017. Nearly all of the fund balance is assigned.

Revenues (excluding transfers) increased by $6.1 million (10.6%) from $57.7 million in 2017 to $63.9 million in 2018. During 2018, the Social Services fund was funded 76.7% from State and Federal grant monies and 22.1% by property and other taxes. The largest portion of the revenue increase, $2.8 million, was for child welfare grants.

Expenditures (excluding transfers) increased $7.8 million (10.6%) from $54.9 million in 2017 to $62.5 million in 2018. The largest portion of the increase, $2.0 million, was from employee salaries and benefits.

**Open Spaces Sales Tax Fund**

This fund was established in 2003 to collect sales and use tax for the preservation and maintenance of open spaces within the County. The total fund balance increased $2.9 million from $40.0 million in 2017 to $42.9 million in 2018. The $42.9 million fund balance is fully restricted for Open Space projects and maintenance.

Revenues increased by approximately $2.2 million (7.9%) from $27.5 million in 2017 to $29.6 million in 2018. The fund received approximately $27.9 in sales tax and use revenue and $0.5 million in venue booth rental from the County Fairgrounds.
Expenditures (including transfers) increased $1.6 million (6.1%) from $25.2 million in 2017 to $26.8 million in 2018. There were $.9 million more share-back payments and grants awarded compared to 2017. In total, the fund expended $20.2 million in grants and share-back payments to incorporated municipalities and other governmental entities in 2018.

Non-major Governmental Funds

The total fund balance of the combined non-major governmental funds increased by $4.9 million (9.6%) from $51.4 million in 2017 to $56.4 million in 2018. Revenues (excluding transfers) increased $0.1 million from $80.3 million in 2017 to $80.4 million in 2014. This was mainly due to higher revenues in intergovernmental grants in the Community Resources fund. Expenditures (excluding transfers) increased $2.8 million from $87.3 million in 2017 to $90.1 million in 2018. This was mainly a result of increased spending in health and welfare from the Community Resources fund.

Proprietary Funds

The net position for the County's internal service funds increased $1.6 million (4.4%) from $36.0 million in 2017 to $37.6 million in 2018.

Of the $37.6 million of the total net position of the proprietary funds in 2018, $34.6 million (92.1%) was the net position of the Central Service Fund. The Central Service Fund is used primarily to allocate the cost of movable assets (furniture and equipment, computers, and vehicles) to the departments of the County to fund the replacement of the assets. It is also used to distribute the costs of central services (postage, fleet maintenance, parts and fuel charges) to departments of the County. Of the $34.6 million net position in the Central Services Fund at the end of 2018, approximately $11.3 million was invested in capital assets net of accumulated depreciation and approximately $23.4 million was available to replace expiring movable assets in the future.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The fiduciary funds are not included in the government-wide financial statements because the resources of these funds are not available to support the County's programs or operations. Therefore, they are not discussed in the Management’s Discussion & Analysis.

ANALYSIS OF CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets

Arapahoe County’s investment in capital assets (net of accumulated depreciation) for its governmental activities was $829.3 million as of 2018 and $836.2 million as of 2017. This investment in capital assets includes land and land improvements, buildings, furniture and equipment, infrastructure, and construction in progress. The County’s investment in capital assets (net of accumulated depreciation) decreased $6.9 million (0.8%) during fiscal year 2018. A summary of the County’s capital assets (net of depreciation) is as follows:
Construction in progress (CIP) increased $2.0 million (55.5%) from $3.7 million in 2017 to $5.7 million in 2018 as projects were started but not yet completed. The $5.7 million is composed of the following capital project categories:

<table>

</tr>
</tbody>
</table>

Additional information on Arapahoe County capital assets can be found in the Notes to the Financial Statements located on page C-27 and C-38 to C-40 of this annual report.

**Outstanding Long-Term Debt**

At the end of fiscal year 2018, the County had three bond issues, one long-term note payable, one certificate of participation and three capital lease purchase agreements outstanding. A summary of the County’s long-term liabilities is as follows:
The County’s total long-term debt decreased $8.9 million in 2018 due to normal debt payments and amortization of premiums/discounts.

Additional information about the County’s long-term debt can be found in the notes to the financial statements on pages C-28 and C-42 to C-50 of this annual report.

**ECONOMIC FACTORS AFFECTING THE COUNTY**

Property tax is the largest source of revenue for the County. The mill levy of the County was 12.817 mills in 2017 (collected in 2018) and 13.302 mills in 2018 (collected in 2019). Property taxes to be collected in 2019 is projected to be $137.1 million, an increase of $12.7 million over the 2018 projected number of $124.4 million due to an increase in the assessed valuation. The County base mill levy was maintained at 15.821 mills with an additional levy of 0.085 mills for refunds and abatements. A temporary tax credit of 2.604 mills was also applied to keep property tax revenue within the limits required by law under the Taxpayer’s Bill of Rights (TABOR).

The residential assessment rate, which determines the amount of residential assessed value the mill levy is applied to, decreased to 7.20% from 7.96% for the 2017 reassessment period for collection in 2018. It is forecasted to decrease again in 2019 for the 2020 tax collections. This decrease will limit the amount of potential revenue to the County but overall declines are not expected.

The unemployment rate for the County was 3.8% as of December 2018, which is an increase from 2.9% in December 2017. This rate is in line with the Denver metro unemployment rate of 3.6% and the State of Colorado rate of 3.6%. Although an increase from the prior year, the rate is still at historic lows and is below the national unemployment rate of 3.9%. Strong health and technology industries along with room to grow continue to make the area popular among companies and employees.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of Arapahoe County’s finances for those with an interest in the government’s financial activities. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Janet Kennedy, Director of Finance, 5334 South Prince Street, Littleton, CO 80120-1136, (303) 795-4620.

C-9
Amounts reported for governmental activities in the Statement of Activities (page C-3) are different because:

Net Change in Fund Balances - total governmental funds (page C-9) $11,353,735

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. (9,256,268)

The Statement of Activities reports losses arising from the sale of capital assets. Conversely, governmental funds do not report any losses on the sale of capital assets. (1,747)

The net effect of various miscellaneous transactions involving the valuation of donated assets is to increase net position. 1,390,258

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 415,336

The repayment of the principal of long-term debt consumes the current financial resources of governmental funds, however, there is no effect on net position. 8,193,408

Governmental funds report the effect of premiums, discounts, and deferred loss on refunding when debt is first issued, whereas these amounts are amortized in the Statement of Activities. 505,978

Some revenues reported in the governmental funds have been reported in the Statement of Activities in prior periods. (745,666)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. (10,863,646)

The internal service funds are used by management to charge the costs of insurance and other services to individual funds. The net expense of certain activities of internal service funds is reported with governmental activities. 1,589,735

Change in net position of governmental activities $2,581,123

The notes to the financial statements are an integral part of this statement.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Arapahoe County, Colorado (the County) is presented to assist in understanding the County's financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America (US GAAP) as applied to government units; and have been consistently applied in the preparation of the financial statements. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates. The following is a summary of the significant accounting policies of the County.

Financial Reporting Entity

Arapahoe County was incorporated under the laws of the State of Colorado in 1902. The County provides a wide range of services to its residents including public safety, highways and streets, parks and open space, conservation, health and social services, public improvements and general administration. The County is governed by an elected five-member Board of County Commissioners. The Board of County Commissioners serves as the administrative and policy-making body of the County. The primary government of the County includes the activities of six other elected officials – the Assessor, Clerk and Recorder, Coroner, District Attorney, Treasurer, and the Sheriff.

The accompanying financial statements present the financial activities of the County and its component units. The Governmental Accounting Standards Board (GASB) has specified the criteria used in defining the financial reporting entity:

The financial reporting entity consists of the primary government and its component units.

A primary government is any state, general-purpose local or special-purpose government, which meets the following criteria: a) it has a separately elected governing body; b) it is legally separate; and c) it is fiscally independent of other state and local governments. A primary government consists of all the organizations that make up its legal entity. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are, for financial reporting purposes, part of the primary government.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization’s governing body and (1) it is able to impose its will on that organization or (2) there is a financial benefit or burden relationship with the primary government. In addition, the primary government may choose to include an organization in the reporting entity that does not meet either of these criteria because the nature and significance of the component unit’s relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Blended Component Units

These financial statements present the County (the primary government) and its component units as required by US GAAP. The component units included in the County’s reporting entity are reported using the blended and the discretely presented methods as appropriate for each component unit. The blended method reports the financial data of the component unit as part of the primary government. This method is used when any of the following circumstances are met:

1) The component unit’s governing body is substantively the same as the governing body of the primary government; and a) there is a financial benefit or burden relationship between the primary government and the component unit or b) management of the primary government has operational responsibility for the component unit.

2) The component unit provides services entirely or almost entirely to the primary government.
Arapahoe County, Colorado  
Notes to the Financial Statements (Continued)  
December 31, 2018

3) The component unit’s total debt outstanding, including leases, is expected to be repaid entirely or almost entirely with resources of the primary government.

The following entities are included in the financial statements as blended component units based upon meeting the criteria for blending and/or their significant financial and operational relationships to the County:

**Arapahoe County Law Enforcement Authority** – The Arapahoe County Law Enforcement Authority (ALEA) is a special district that provides law enforcement services in the unincorporated areas of the County. The Board of County Commissioners serves as the Board of the ALEA. The County Sheriff is the Chief Operating Officer. The Arapahoe County Law Enforcement Authority is reported as a Special Revenue Fund.

**Arapahoe County Housing Authority** – The Arapahoe County Housing Authority (the Authority) supports the improvement of housing conditions and community facilities for low and moderate-income individuals. The Board of County Commissioners serves as the entire board for the Authority. The County has all of the operational responsibilities for the Authority. The Authority is referred to in this Comprehensive Annual Financial Report (CAFR) as the Community Development Fund and is reported as a Special Revenue Fund.

**Arapahoe County Recreation District** – The Arapahoe County Recreation District (the District) is a special district that provides parks and recreation services in the Southeast part of the urbanized area of the County. The Board of County Commissioners serves as the entire board for the District and therefore makes all decisions controlling the District’s activities and finances. The Arapahoe County Recreation District is reported as a Capital Projects Fund.

**Arapahoe County Water and Wastewater Public Improvement District** - The Arapahoe County Water and Wastewater Public Improvement District (PID) was formed in 2001 to provide capital infrastructure funding for the service district located in the south central part of the County. In November 2001, the taxpayers within the PID voted to authorize the issuance of $165,000,000 in General Obligation Bonds to finance water and wastewater projects. The Board of County Commissioners maintains control over operations and fiscal matters since they serve as the *ex officio* Board of Directors for the PID. The Arapahoe County Water and Wastewater Public Improvement District is reported as a Capital Projects Fund.

**Arapahoe County Building Finance Corporation** – The Arapahoe County Building Finance Corporation (ACBFC) is a not-for-profit corporation that issues certificates of participation for funding the construction of facilities that are leased to the County through a lease purchase agreement. The Board of County Commissioners do not hold positions on the board for the ACBFC; however, the Board of County Commissioners appoints all members of the ACBFC board. The Arapahoe County Building Finance Corporation is reported as a Debt Service Fund.

**Arapahoe County Retirement Trust Fund** – The Arapahoe County Retirement Trust Fund manages the retirement benefits for County employees. The Arapahoe County Retirement Plan (the Plan) is a single employer defined benefit pension plan established by the County to provide pension benefits for its employees. The Plan is administered by a Retirement Board consisting of five members: the incumbent County Treasurer, two County employees elected by plan members, and two registered electors of the County appointed by the Board of County Commissioners. The five-member Retirement Board reviews information about the County’s retirement fund and is responsible for assessing the fund’s fiscal health. The Plan is considered part of the County’s financial reporting entity and is included as a blended component unit. The Arapahoe County Retirement Trust Fund is reported as a Fiduciary Fund.

**Discretely Presented Component Units**

Discrete component units are reported in separate columns on the government-wide financial statements to emphasize the legal separation between these organizations and the primary government. The following entities are included in the financial statements as discretely presented component units:
Arapahoe County Airport Authority – The Arapahoe County Public Airport Authority (the Authority) is governed pursuant to the provisions of the Colorado Public Airport Authority Act. The Authority was formed for the statutory purposes of acquiring and improving an airport, air navigational facilities, and related facilities and for financing the cost of such acquisitions and improvements. The Authority operates Centennial Airport, which is located in Arapahoe and Douglas Counties.

The Authority is governed by an eight-member board. The board is comprised of three Arapahoe County Commissioners and two additional members who are appointed by the Commissioners. These five members are the full voting board of the Authority. The Authority also includes three non-voting members who are appointed by the Douglas County Board of County Commissioners.

The interrelationship in certain financing arrangements between the County and the Authority has resulted in a financial benefit/burden relationship. The County is legally obligated to assume the responsibility for payment of these financial arrangements in the event of default by the Authority; therefore, the County is financially accountable for the Authority. The Arapahoe County Airport Authority is included as a discrete component unit within the County’s financial reporting entity.

Arapahoe County Water and Wastewater Authority – The Arapahoe County Water and Wastewater Authority (ACWWA) is a political subdivision that was created in 1988 pursuant to an intergovernmental agreement between Arapahoe County and the Arapahoe Water and Sanitation District (the District). ACWWA encompasses approximately 5,200 acres and provides water, wastewater, and storm water services to citizens and businesses within the service area to include Arapahoe County and parts of northern Douglas County. Other areas within ACWWA’s service area include the Town of Foxfield and a residential subdivision in northwest Elbert County. In addition, ACWWA provides wholesale wastewater treatment services to the Cottonwood Water and Sanitation District in Douglas County.

On February 6, 2002, the County entered into an intergovernmental agreement with the Arapahoe County Water and Wastewater Public Improvement District (PID). The PID was organized in 2001 pursuant to the provisions of the Colorado Revised Statutes Title 30, Article 20, Part 5 for the purpose of constructing certain public improvements to serve customers within and without its jurisdictional boundaries. The Intergovernmental Agreement (IGA) was amended and restated, in part to have the PID replace the District as a party to the IGA. The PID retains ACWWA as its management agency pursuant to this management agreement. In consideration for ACWWA’s commitment to provide management service, the PID agreed to issue general obligations bonds, and certify a mill levy on property within the PID at a level sufficient to make the annual debt service payments as identified in the PID’s annual capital plan, thus creating a financial benefit/burden relationship between ACWWA and the PID. ACWWA has no statutory authority to levy any taxes to finance the issuance of general obligation debt or for general operations.

A nine-member Board of Directors appointed by the Arapahoe County Board of Commissioners governs ACWWA. Two of the nine members are Board of County Commissioners. These two Board of County Commissioners appoint seven additional members to the Board, creating the nine-member board.

The Arapahoe County Water and Wastewater Authority is presented as a discrete component unit within the County’s financial reporting entity. This component unit is separate and distinct from the Arapahoe County Water and Wastewater Public Improvement District (PID).

E-911 Authority – The Arapahoe County E-911 Emergency Communications Service Authority (E-911 Authority) was formed in 1987 by an Intergovernmental Agreement (IGA) between Arapahoe County and various cities, towns, and fire protection districts within Arapahoe County. The E-911 Authority was formed as a separate legal entity to fund the purchase and maintenance of the E-911 network for emergency communication service. The E-911 Authority includes all of Arapahoe County, with the exception of the City of Aurora. The E-911 Authority covers approximately 712 square miles and serves over 288,000 citizens.
The E-911 Authority is governed by Colorado statutes and the IGA. The Board of Directors for the E-911 Authority are appointed to two-year terms by the Arapahoe County Board of County Commissioners pursuant to the IGA. The Board of Directors is comprised of five members: two representatives of the law enforcement community, two representatives from the fire rescue community and one at-large member.

The County provides accounting and treasury services for the E-911 Authority although the E-911 Authority publishes its own budget. The E-911 Authority is included as a discretely presented component unit within the County’s financial reporting entity.

Complete financial reports are prepared for these component units with the exception of E-911 Authority. All financial information for these entities may be obtained at the following locations.

Government–wide and Fund Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County’s finances as a whole. These financial statements report information on all of the non-fiduciary activities of the primary government and its component units. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The statements included in the government-wide financial statements are:

The Statement of Net Position – The Statement of Net Position presents information related to assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the net of all four categories being reported as the County’s net position.

The Statement of Activities – The Statement of Activities presents information demonstrating the change in net position during the current fiscal year. The Statement of Activities reflects both the direct expenses and net cost of each function of the County’s governmental activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges paid by the recipient for the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each government function is self-financing or draws from the general revenues of the County.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are taxes and other charges between the functions of the government, which have not been eliminated. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.
Separate government-wide and fund financial statements are presented, however, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. The fiduciary funds use the accrual basis of accounting, but have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grant awards and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's internal service funds are charges to the entity for services which include: postage, oil and gas, vehicles and insurance, and funding for the replacement of movable capital assets. Operating expenses include administrative expenses, cost of sales and services, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Funds – Governmental funds are used to account for the County's governmental activities. Governmental fund financial statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they are both measurable and available). Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Most grant reimbursements, property taxes, franchise taxes, permits, licenses, and interest associated with the current fiscal year are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal year.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, unmatured interest on general long-term debt is recognized when due, and expenditures related to compensated absences and claims and judgments are recognized when the obligations have matured (i.e., expected to be liquidated with expendable available financial resources). Capital asset acquisitions are reported as expenditures in governmental funds.

The County reports the following major governmental funds:

The **General Fund** is the County’s primary operating fund. It accounts for all financial resources of the general government, except those that are properly accounted for in another fund.

The **Social Services Fund** is a special revenue fund that administers human services programs under state and federal regulations. This fund accounts for the financial and protective services provided to children, families, and elderly and disabled adults. The Social Services Fund is funded primarily with local property tax as well as funds from other state and federal sources.

The **Open Spaces Sales Tax Fund** is a special revenue fund which accounts for the revenues received from the 0.25% sales and use tax originally approved by the voters in 2003 for the acquisition, development, and maintenance of open space, trails, and parks. In 2011, the voters approved the extension of the program to 2023. Several grants have been obtained for specific purposes in addition to monies contributed on joint projects by other entities. These monies are restricted by grant documents and contracts to be used solely for these projects.
Additionally, the County reports the following fund types:

The **Internal Service Funds** account for operations that provide services to other departments or agencies of the County on a cost-reimbursement basis. The internal service funds provide services for postage, oil and gas, vehicles, and funding for the replacement of movable capital assets. Self-insurance programs for employee benefits, property, and liability are also accounted for in these funds.

The **Fiduciary Funds** are used to account for resources held for the benefit of outside parties, including other governments. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County’s own programs. The fiduciary funds reported by the County include the Retirement Trust Fund and Agency Funds.

The **Retirement Trust Fund** (the Plan) is a sponsored, single employer defined benefit plan. All permanent, full-time employees of the County are required to become members of the plan.

The **Agency Funds** are custodial in nature and are used to account for assets that the County holds for others in an agency capacity (e.g., taxes collected by the Clerk and Recorder for the benefit of other governments). The Public Trustee’s agency fund collects fees pertaining to foreclosures and deeds of trust. The Inmate Sentencing Fund holds funds on behalf of inmates.

### Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Fund Balances

**Cash**

All cash within the County reporting entity is deposited with the County Treasurer, with the exception of: cash held for third parties in fiduciary funds, cash held by paying agents in the internal service funds, and cash held by certain discrete and blended component units. For the purpose of the cash flows statement, cash includes cash-on-hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The County maintains pooled cash and investments for all funds. Negative cash balances have been reclassified as interfund payables.

**Investments**

Investments primarily consist of U.S. Treasury and agency obligations, corporate debt securities, and approved money market funds, all recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of the plan with the assistance of a valuation service.

**Property Taxes**

Property taxes are not due and payable until after the assessment year has ended, and are not included in the budget or statement of revenues, expenditures, and fund balance of the assessment year. Property taxes are initially recorded as deferred inflows of resources in the year they are levied and measurable. These deferred property tax inflows of resources are recorded as revenue in the year they are collected.

Property taxes are levied on or before December 15th of each year and attach as an enforceable lien on the property on January 1 of the subsequent year. Taxes are payable in full on April 30th or in two installments on February 28th and June 17th. The County bills and collects its own property taxes and the taxes for various other entities. Tax collection and distribution to the various taxing entities is done by the 10th of every month following the month of collection by the Treasurer.
Receivables/Payables

All trade and property tax receivables are shown net of an allowance for uncollectible. Property taxes receivable is shown net of an allowance for uncollectible of 1%.

Balances that originate from current lending/borrowing arrangements between funds are referred to as “due to/from other funds.” Advances are non-current lending/borrowing between funds. Advances between funds, as reported in the fund financial statements, are shown as nonspendable fund balance in applicable County funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Accounts payable are generally recorded when the obligation is incurred. Debt service and claims and judgments are recorded when they become due.

Inventories and Prepaid Items

Inventories of certain items are valued at cost using a weighted average method. The costs of inventories in all other governmental funds are recorded as expenditures when purchased rather than when consumed.

Items recorded as prepaid items in both the government-wide and fund financial statements include certain payments to vendors that reflect costs applicable to future accounting periods.

Capital Assets

Capital assets, which include land, buildings and improvements, furniture and equipment, construction in progress, and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the government as assets with an initial individual cost of $5,000 or more. Such assets are recorded at historical cost. As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. In the case of donations, the government values these capital assets at the acquisition value of the item at the date of its donation.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method of depreciation over the following estimated useful lives:

Compensated Absences

It is the County’s policy to permit employees to accumulate earned but unused vacation and sick leave benefits up to certain limits. There is also a policy whereby the County pays the employees, upon termination, for their allowed accumulated leave. Therefore, there is a liability on the government-wide financial statements for this unpaid accumulated leave. When the amount is actually paid upon termination, the expenditure is recorded within the governmental fund. The County also has contractual employment agreements with certain department heads. Some of these contracts contain separation agreements with compensation due at the conclusion of the relationship.
Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualify for reporting in this category. The first item that qualifies is the deferred charge on refunding of bonds reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred pension outflows is the other item that is being presented as a deferred outflow of resources; see Note 14 for the deferred outflows of resources related to pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for the reporting in this category. One is for property tax revenue which is considered a deferred inflow of resources in the year the taxes are levied and measurable and are recognized as an inflow of resources in the period they are collected. Deferred pension inflows is the other item that is being presented as a deferred inflow of resources; see Note 14 for the deferred inflows of resources related to pensions.

Some items are considered deferred inflows of resources under the modified accrual basis of accounting and are only reported in the governmental funds. One item that qualifies for reporting in this category is the item unavailable revenue. The County reports unavailable revenue from several sources: grants and delinquent property taxes. These amounts are recognized as an inflow of resources in the period the revenue becomes available.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Long-term debt premiums and discounts are amortized over the term of the long-term debt. Long-term debt payable is reported net of the applicable unamortized premiums or discounts. Long-term debt issuance costs are reported as an expense when incurred.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Balance

In the fund financial statements, governmental funds report fund balance based on the extent to which the County is bound to honor constraints on the specific purpose for which funds can be spent. Fund balance classifications are based on the requirements of GASB Statement No. 54. Classifications are nonspendable, restricted, committed, assigned, and unassigned. Restricted amounts are not available for appropriation because they are legally restricted by an outside party for a specific purpose. Committed funds are funds reserved for a specific purpose by the Board of County Commissioners; funds cannot be committed or uncommitted without formal action - Board Resolution - by the Board. Assigned funds are assigned by the Board of County Commissioners for a specific purpose. Unassigned is a residual classification within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance. For further details on the various fund balance classifications, refer to Note 18.

If both restricted and unrestricted amounts of fund balance are available for use when expenditure is incurred, it is County policy to use restricted amounts first and then unrestricted resources as they are needed. Unrestricted fund balance will be used in the following order: committed, assigned and unassigned.
The Board of County Commissioners has a formal fund balance reserve policy. This policy is adopted through resolution each year for the purpose of maintaining a satisfactory level of unappropriated fund balance reserves in order to insure a continued strong financial position within the County and to conform to the requirements of the Taxpayer’s Bill of Rights (TABOR). For this financial report, the amount of the Board reserves that pertains to TABOR has been separated from the total and is considered Restricted as per the definition above. The remaining amount does not meet the GASB Statement No. 54 requirements of a stabilization agreement. Instead, it is considered to be a minimum fund balance policy. Per GASB Statement No. 54, these amounts are required to be reported as part of Unassigned Fund Balance in the General Fund and Assigned Fund Balance in any other funds. The amounts approved by the Board Policy, excluding the TABOR portion, and included in Fund Balance are as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Fund</td>
<td>$20,619,083</td>
</tr>
<tr>
<td>Social Services</td>
<td>2,059,035</td>
</tr>
<tr>
<td>Arapahoe Law Enforcement Authority</td>
<td>1,435,368</td>
</tr>
<tr>
<td>Road &amp; Bridge</td>
<td>2,575,630</td>
</tr>
</tbody>
</table>

**Net Position**

The County reports restricted net position when constraints placed on resources are (a) externally imposed by creditors, grantors, contributors, laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Net investment in capital assets is a portion of net position that represents the County’s net investment in its capital assets. The portion of net position that is categorized as unrestricted has not been classified as either net investment in capital assets or restricted net position.

**Deficit Fund Balance**

The following funds had deficit fund balances at December 31, 2018: AD Works! Fund ($174,634), Community Development Fund ($6,594), Grant Fund ($361,714) and the Homeland Security Fund ($229,375). The revenue to offset the deficits is currently reported as deferred inflows of resources because it is unavailable but will be recognized as earned revenue as soon as the funds are collected.

**Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Encumbrance Accounting**

The County uses encumbrance accounting as an extension of its budgetary scheme. Encumbrances are recorded when a purchase order or contract is issued. They are reduced when the related expenditure/expense is made. Encumbrances lapse at year-end but may be re-established in the subsequent year if the budget related to the encumbrance is approved by the Board of County Commissioners to be re-appropriated to the subsequent year or if the subsequent year’s budget is adequate to cover the amount of the rolled over encumbrance. The County does not restrict any fund balance for encumbrances unless those amounts are restricted for a specific purpose under GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions.
NOTE 2: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental fund Balance Sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this ($360,882,366) are as follows:

General Obligation Bonds Payable $ (133,660,000)
Less: Net Bond Discount/(Premium) (1,347,822)
Certificates of Participation Payable (12,205,000)
Less: Premium on Certificate of Participation (993,045)
Note Payable (5,048,998)
Less: Premium on Note Payable (49,432)
Capital Leases Payable (13,720,978)
Landfill - Post Closure Costs Payable (4,913,424)
Compensated Absences (10,553,240)
Total Long Term Debt (182,491,939)

Accrued Interest Payable (744,138)
Net Pension Liability (177,086,029)
Social Services Advance from State (560,260)

Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities $ (360,882,366)

Another element of that reconciliation states, “other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.” The details of this $415,336 are as follows:

Receivables:
Delinquent Property Taxes $ 19,551
Grants 395,785

Net adjustment to increase total governmental funds to arrive at net position - governmental activities $ 415,336
B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide Statement of Activities.

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this ($9,256,268) difference are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Capital Outlay</td>
<td>$13,538,293</td>
</tr>
<tr>
<td>Depreciation Expense</td>
<td>($22,794,561)</td>
</tr>
<tr>
<td>Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</td>
<td>($9,256,268)</td>
</tr>
</tbody>
</table>

Another element of that reconciliation states that “revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.” The details of this $415,336 difference are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grants</td>
<td>$395,785</td>

<tr>
<td>Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</td>
<td>($10,863,644)</td>
</tr>
</tbody>
</table>
NOTE 3: **LEGAL COMPLIANCE - BUDGETS**

Budgets for the General, Special Revenue, Debt Service, and Capital Projects Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (US GAAP) with the exception of the differences for the General Fund as described in Note 19.

The budgets for the proprietary funds are not adopted on a basis consistent with accounting principles generally accepted in the United States of America (US GAAP), as capital outlay and debt service are budgeted as expenditures and bond proceeds, contributed capital and equity transfers are budgeted as revenues.

Arapahoe County utilizes the encumbrance method of recording commitments related to unperformed contracts for goods and services during the year. Due to the County's integrated accounting and budgetary control system, appropriations are considered to lapse at year-end. Related amounts are re-appropriated in the following year.

On or before August 15th of each year, elected officers, directors and department heads submit revenue estimates and expenditure requests to the Budget Manager, the official charged with organizing an overall County budget for submission to the Board of County Commissioners. On or before August 25th of each year, the County Assessor submits the current total assessed valuations for all taxing entities in the County and the factors needed to compute the statutory property tax revenue limits. The Budget Manager then submits a balanced budget to the Board on or before October 15th.

The Board of County Commissioners posts and publishes notice that the budget has been received and is open for inspection by the public and notice of the date of the scheduled public hearing at which any elector of the County may register an objection to the proposed budget. The budget must be adopted by December 15th of each year.

All property tax mill levies must be certified by the Board of County Commissioners on or before December 22nd of each year. Prior to the beginning of the next fiscal year, the Board of County Commissioners enacts an appropriating resolution to approve the total budget and departmental expenditures. Expenditures for each fund may not legally exceed budgeted expenditures at the individual fund level. By County policy, expenditures in the General Fund cannot exceed the appropriated departmental level. Neither the Board of County Commissioners nor any County officers can expend money for any of the purposes set out in the appropriation resolution in excess of the amount appropriated. The Budget Manager may transfer budget amounts between line items as long as the total budget for the fund or General Fund department is not exceeded. Any revisions to the total appropriation of any fund must be approved by a supplemental appropriation resolution by the Board of County Commissioners. A few supplemental appropriation resolutions were enacted and filed with the Division of Local Government, State of Colorado. Supplemental appropriations for the current year have been approved by the Board of County Commissioners in the following year.
NOTE 4: CASH, DEPOSITS, INVESTMENTS, AND RESTRICTED ASSETS

A summary of Cash and Investments for the Primary Government and Fiduciary Funds (excluding the Retirement Trust Fund – see Note 14) and discretely presented component units are as follows:

</tbody>
</table>

**Deposits**

Colorado State Statutes, specifically the Public Deposit Protection Act (PDPA) of 1989, require all public monies to be deposited in financial institutions that have been designated as eligible public depositories. Eligible public depositories must pledge eligible collateral for any amounts in excess of the required Federal Deposit Insurance Corporation (FDIC) amount, as promulgated by the Colorado Division of Banking, having a market value in excess of 102% of the aggregate uninsured public deposits. At December 31, 2018, the County’s carrying amount of cash deposits was $43,611,588. Of the County’s bank balances totaling $45,526,380, $2,099,442 was covered by FDIC and $43,426,943 was collateralized under PDPA. The component units’ carrying amount of deposits with banks was $27,442,965 and the bank balance was $33,285,638.

**Investments**

Significant portions of cash in the discretely presented component units and the agency funds are pooled with primary government cash and then invested in the most advantageous manner to the reporting entity as a whole. It is not possible to determine how much discretely presented component unit cash was invested in a certain way. Therefore, this investment section is presented for the entire reporting entity, including the Agency Funds.
Authorized Investments

The County has adopted a formal investment policy that limits the County’s investments to investments within the confines of the Colorado Revised Statutes, sections: 30-10-708, 11-10.5-101, 24-75-601, 24-75-603 & 24-75-702. Investments authorized under these statutes include:

- Obligations of the United States and certain U.S. government agency securities and World Bank
- Certain international agency securities
- General obligation and revenue bonds of local government entities
- Bankers’ acceptance of certain banks
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

As of December 31, 2018, the County had the following investments:

</table>

As of December 31, 2018, the County had invested in local government investment pools which include the Colorado Local Government Liquid Asset Trust (COLOTRUST) and the Colorado Surplus Asset Fund Trust (CSAFE). The local government investment pools are investment vehicles which were established for local government entities in Colorado to pool surplus funds. Both pools are similar to money market funds, with each share valued at $1.00.
COLOTRUST offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities, Federal Instrumentality Securities, Agency Securities, Collateralized Bank Deposits, Repurchase Agreements, and Tri-Party Repurchase Agreements. COLOTRUST PLUS+ may also invest in Commercial Paper that, at the time of purchase, is rated in its highest rating category by one or more nationally recognized statistical rating organizations that regularly rate such obligations, and highly rated corporate bonds. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal mechanisms of the pooled funds. The custodian's internal records identify the investments owned by each pool investor. The investment pools are routinely monitored by the Colorado Division of Securities with regard to operations and investments. As of December 31, 2018, the County, including component units, had $39,693,898 invested in COLOTRUST.

As of December 31, 2018, the County, including component units, had $33,216,710 invested in the Colorado Surplus Asset Fund Trust (CSAFE). CSAFE is an investment vehicle established for local government entities in Colorado to pool surplus funds. The Colorado Division of Securities administers and enforces the requirements creating and operating CSAFE. Investments in the external investment pool are shown at amortized cost for financial reporting purposes. CSAFE is rated AAAm by Standard and Poor's. Investments of CSAFE are limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by participating governments.

**Credit Risk**

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. Credit risk is measured by the assignment of a rating by a nationally recognized statistical rating organization including Standard & Poor’s (S&P), Moody’s Investor Service (Moody’s) and Fitch Ratings (Fitch). Currently, the County has no formal credit risk policy. The following table displays the ratings for the County’s investments at December 31, 2018:

Arapahoe County, Colorado
Notes to the Financial Statements (Continued)
December 31, 2018

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's safekeeping bank must meet the following requirements under the County's investment policy: the purchase and sale of securities and repurchase agreements shall be settled on a delivery versus payment basis, ownership of all securities shall be perfected in the name of the County Treasurer, and sufficient evidence to title shall be consistent with modern investment, banking and commercial practices. At December 31, 2018, all of the County's investments are held in the name of the County.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment instrument, the greater the sensitivity of its fair value to changes in market interest rates. The County's investment policy maintains that the portfolio is to remain sufficiently liquid to meet all cash requirements that may be reasonably anticipated. One of the ways the County manages its exposure to interest rate risk is by laddering maturities evenly to provide continuous cash flow and liquidity needed for operations. In accordance with its investment policy, the County's investments are limited to maturities not exceeding five years from the date of trade settlement.

Concentration Risk

Concentration risk is the risk of loss attributed to the magnitude of the County's investments in a single issuer. The County's investment policy states that the County shall diversify its investments to avoid incurring unreasonable risks inherent in over-investment in specific instruments, individual financial institutions or maturities. The County seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the County to meet its anticipated cash requirements. Investments in any one issuer (other than mutual funds and external investment pools) that represent 5% or more of the County's total investments are as follows:

<table>
<thead>
<tr>
<th>Investment Type</th>
<th>Fair Value</th>
<th>Percent of Investment Portfolio</th>
</tr>
</thead>
<tbody>
<tr>
<td>Federal Home Loan Mortgage Corporation</td>
<td>$30,835,252</td>
<td>15%</td>
</tr>
<tr>
<td>Federal Farm Credit Bank</td>
<td>$40,268,170</td>
<td>19%</td>
</tr>
<tr>
<td>Federal National Mortgage Association</td>
<td>$29,941,002</td>
<td>14%</td>
</tr>
<tr>
<td>Federal Home Loan Bank</td>
<td>$29,858,550</td>

<td>$9,979,950</td>
<td>5%</td>
</tr>
<tr>
<td>Treasury Note</td>
<td>$15,834,920</td>
<td>8%</td>
</tr>
</tbody>
</table>

As of December 31, 2018, the component units had no investment in one issuer (other than mutual funds and external investment pools) that represents 5% or more of total investments.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an Investment. All of the County's investments, including its holdings in foreign corporate bonds, are denominated in U.S. currency and, therefore, not subject to foreign currency risk.
Fair Value

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities’ relationship to benchmark quoted process; Level 3 inputs are significant unobservable inputs. The County has the following fair value measurements as of December 31, 2018.

<table>
<thead>
<tr>
<th>Investment</th>
<th>12/31/2018</th>

Amortized Cost:
- Local Government Investment Pools: $33,041,145
- U.S. Govt Money Market Funds: $315
- Money Market Funds: $674,855
  Total: $33,716,315

Net Asset Value (NAV)
- Local Government Investment Pools: $24,717
  Total: $209,793,444

NOTE 5: INTERFUND RECEIVABLE AND PAYABLE BALANCES AND TRANSFERS

Interfund receivable and payable balances arise due to short-term cash flow needs in certain non-major governmental funds. At December 31, 2018, the balances are as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Due To</th>
<th>Due From</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Fund</td>
<td>$916,235</td>
<td>-</td>

**NOTE 7: DEFERRED INFLOWS OF RESOURCES – UNAVAILABLE REVENUE**

Under both the accrual and modified accrual basis of accounting, revenue may be recognized only when earned. Therefore, the government-wide Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Under the modified accrual basis of accounting, it is not enough that revenue has been earned if it is to be recognized in the current period. Revenue must also be susceptible to accrual (i.e., measurable and available to finance expenditures of the current period). Governmental funds report deferred inflows of resources in connection with receivables for revenues not considered available to liquidate liabilities of the current period. The County considers revenues available if they are collected within 60 days after year-end. At December 31, 2018, items considered unavailable to finance expenditures of the current fiscal period totaled $415,336.
NOTE 8: CAPITAL COMMITMENTS

The County has contractual commitments for capital construction projects, capital asset purchase contracts, information technology and communication services, professional services, rent and other services as of December 31, 2018. These encumbrances are re-appropriated against the subsequent year’s budget. The amount of these commitments re-appropriated at year end was:

<table>

</tbody>
</table>

Developers contribute funds to the County to help pay for County infrastructure costs related to their developments. The contributions are recorded as revenue in the capital project funds. These infrastructure projects are typically completed after the contributions are received and recorded as revenue. The probability that the County will ultimately fail to complete a project for which a developer has contributed funds is remote and does not justify the recording of a liability in the financial statements. During 2018, $882,710 was contributed to the County by developers and is recorded as revenue for which development improvement projects must be completed by the County in the future.

NOTE 9: DEFERRED COMPENSATION PLANS

The County offers its employees an opportunity to participate voluntarily in a deferred compensation plan. This plan, created in accordance with Internal Revenue Code Section 457, is maintained by a third-party administrator, International City Management Association Retirement Corporation (ICMA-RC). The plan permits employees to defer a portion of their salary until future years. In 2018, employees could voluntarily elect to have amounts withheld from their compensation up to age of 50 to $18,500 per year and above the age of 50 to $24,500 per year. The amounts withheld are deposited to each participant’s account, according to each participant’s investment direction, making the plan funded. The deferred compensation balance is not available to employees until termination, retirement, death, or an unforeseeable emergency.

In accordance with GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, the County established trusts to hold the assets of the plans and modified the documents to state that the plan is “held in trust for the exclusive benefit of participants and their beneficiaries.” As such, the plans’ assets are not the property and right of the County, and therefore, are not reflected in the government-wide financial statements of the County.
NOTE 10: CHANGES IN LONG-TERM LIABILITIES

The Arapahoe County Water and Wastewater Public Improvement District (PID) Bonds are paid out of a Capital Projects Fund. All other General Long-Term Debt (except compensated absences) is paid for out of the Debt Service Funds. The County will liquidate compensated absences in the General, Social Services, Arapahoe Law Enforcement Authority District, Arapahoe/Douglas Works, Road & Bridge, Sheriff’s Commissary, Housing and Community Development, Grant and Open Spaces Sales Tax Funds.

Bonds

Arapahoe County Water and Wastewater Public Improvement District 2009 Series A & B Bonds

On December 16, 2009, the Arapahoe County Water and Wastewater Public Improvement District 2009 Series A & B Bonds were issued in the amount of $56,075,000 with fixed interest rates between 4.25% and 6.48%. The bonds were issued to finance the acquisition of water rights and to capitalize interest and the costs of issuing the bonds. The County is eligible to receive an interest subsidy credit on its interest payments for these bonds subject to Section 6431 of the Internal Revenue Code. Future debt payments are as follows:

C-42
Arapahoe County, Colorado  
Notes to the Financial Statements (Continued)  
December 31, 2018

Arapahoe County Water and Wastewater Public Improvement District Series 2012 Refunding Bonds

On September 27, 2012, the Arapahoe County Water & Waste Water Public Improvement District issued General Obligation Refunding Bonds in the amount of $59,020,000 to refund the Arapahoe County Water & Wastewater Public Improvement District 2002 Series A & B Bonds. The fixed interest rates of these bonds range from 2.25% to 4.00%.

The refunding of the Arapahoe County Water & Wastewater Public Improvement District 2002 Series A & B Bonds resulted in a deferred outflow of resources of $627,547 as of December 31, 2018 and amortized over the life of the new (refunding) debt. Future debt payments are as follows:

### Notes Payable

**Arapahoe County Water and Wastewater Public Improvement District 2006 Colorado Water Resources and Power Development Authority Drinking Water Fund Long-term Note Payable**

The Arapahoe County Water and Wastewater Public Improvement District entered into a long-term note payable with the Colorado Water Resources and Power Development Authority on November 1, 2006. This long-term note payable financed a joint water purification project being constructed with the Cottonwood Water and Sanitation District, including production wells, a pumping station and transmission pipelines. The note was for $16,049,975 with an average interest rate of 4.075%. Future debt payments are as follows:

### Certificates of Participation

All Certificates of Participation are paid from a debt service fund.

#### 2015 COP Refunding

On December 9, 2015, the County issued Refunding Certificates of Participation, Series 2015 in the amount of $23,010,000 with fixed interest rates ranging from 2% to 5%.

The refunding of the Certificate of Participation Series 2006 resulted in a deferred outflow of resources loss of $235,420 as of December 31, 2018 and amortized over the life of the new (refunding) debt. Future debt payments are as follows:

Capital Leases

The following leases qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date.

Parkland Lease Purchase - Zions First National Bank

The County entered into a lease purchase agreement with Zions First National Bank on November 15, 2007. The lease financed the purchase of park and open space land in the Dove Valley subdivision adjacent to the Arapahoe Community Park.

The gross assets acquired under the lease were $2,600,000. This is a land purchase and not subject to depreciation.

Payments of $167,077, including principal and interest accruing at 1.340%, are due semi-annually.

The future minimum lease obligations and the net present value of these minimum lease payments are as follows:

<table>

District Attorney Office Building Lease Purchase

The County entered into a lease agreement with JPMorgan Chase Bank, N.A., on September 17, 2008 for a building located at 6450 South Revere Parkway, Centennial, Colorado. The District Attorney’s office relocated to this building in 2009 as necessary to expand and re-configure the Justice Center due to growth. The District Attorney Building lease purchase was refinanced on August 12, 2014 to take advantage of lower interest rates that resulted in lower debt service payments. The 2014 refinancing was issued in the amount of $2,722,849. As of December 31, 2018, the District Attorney Office Building lease purchase as fully paid off.

Lima Ridge Lease Purchase

The County entered into a lease agreement with Banc of America Public Capital Corp. on May 19, 2011. The lease financed the purchase of the Lima Ridge Professional Center located at 6924 South Lima Street, Centennial, Colorado.

The gross assets purchased with the lease proceeds is $9,650,000. The accumulated depreciation is $3,392,667 with a net book value of $6,257,333. The depreciation expense was $463,370 for the year ended December 31, 2018.

Payments including principal and interest accrue at 4.5% and are due in monthly installments from May 2011 through December 2030.

The future minimum lease obligations and the net present value of these minimum lease payments are as follows:
Fairgrounds Expansion Project Lease Purchase

On August 12, 2014, the County entered into a lease agreement with JPMorgan Chase Bank, N.A., to finance the expansion of the west side of the County Fairgrounds exhibition hall and to construct an outdoor horse arena for equestrian and livestock events.

The total lease purchase was $9,443,393, of which $2,722,849 was used to refinance the lease for the District Attorney’s Office Building. The remaining $6,720,544 is being used to finance the Fairgrounds Expansion Project.

The gross assets purchased in 2014 with the lease proceeds is $6,649,786. The accumulated depreciation is $477,116 with a net book value of $6,172,670. The depreciation expense was $229,501 for the year ended December 31, 2018.

Semi-annual payments are due for the period August 2014 through August 2029. The average interest rate is 2.84% per annum.

The future minimum lease obligations and the net present value of these minimum lease payments are as follows:

Landfill – Post-Closure Costs

The County previously owned and operated a landfill. This landfill was closed in 1987 and is no longer in operation. The County shares remedial action expenses with Waste Management Inc. with the County responsible for 75%. Each year, Waste Management bills the County when actual costs have been determined. The County’s cost for 2017 was $241,662 (paid in 2018) and $140,550 for 2018 (paid in 2019). When the landfill was closed in 1987, the State Department of Public Health and Environment placed the landfill on a 30-year monitoring program. After 30 years, provided all testing was satisfactory, the County would no longer be liable for ongoing monitoring costs. During 2017, the original 30-year monitoring program ended and the State Department of Public Health and Environment re-evaluated the landfill and placed the landfill on another 30-year monitoring program. Therefore, the best estimate of liability is $4,913,424 as of December 31, 2018, with $169,021 being payable within one year. However, the actual post-closure costs may be higher or lower due to inflation/deflation and changes in technology or in applicable laws and regulations. This amount is recorded as a long-term liability, due within one year, on the government-wide financial statements as of December 31, 2018.
NOTE 11: DISCRETELY PRESENTED COMPONENT UNIT DEBT

Details of the debt for each of the component units can be found in their individual financial statements. Following is a discussion of the debt that is particularly relevant to the relationship between the component unit and the Primary Government.

**Arapahoe County Public Airport Authority**

Long-term liability activity for the year ended December 31, 2018, is as follows:

<table>
<thead>
<tr>
<th></th>
<th>Beginning Balance</th>
<th>Additions</th>
<th>Deletions</th>
<th>Ending Balance</th>
<th>Due Within One Year</th>

<td>-</td>
<td>$8,000,000</td>
<td>-</td>
<td>$8,000,000</td>
<td>$714,070</td>
</tr>
</tbody>
</table>

**Note Payable**

In 2018, the Authority obtained a loan in the amount of $8,000,000 in order to finance construction of an aviation community and administrative facility. The loan bears interest at the rate of 2.5% on the unpaid balance, compounded annually. The Authority is making 10 annual installments in the amount of $714,070. The loan is secured with loan proceeds from financing a building. The outstanding balance as of December 31, 2018 is $8,000,000.

**Commitments and Contingencies - Rental Agreements**

The Authority has operating rental agreements with fixed base operators and subleases for rental of land and buildings owned by the Authority. These agreements stipulate that upon termination, title of any leasehold improvements will pass to the Authority. The following is an estimate, by year, of minimum future rental revenue under these agreements:

<table>
<thead>
<tr>
<th>Year</th>
<th>Amount</th>
</tr>
</thead>
<tbody>

<td>$155,742,878</td>
</tr>
</tbody>
</table>

Revenues under these leases amounted to $2,613,561 during 2018. Included in this amount are a percentage of revenue fees associated with these leases.

The Authority has entered into lease agreements with the FAA to lease approximately 2,100 square feet of the Authority’s tower and approximately 2,300 square feet of the Authority’s administrative office building. The tower lease had an expiration date of July 9, 2006 and the FAA did not exercise the option to purchase the tower. The tower lease was renegotiated in 2006 at an amount equivalent to the tower repairs and maintenance and expired September 30, 2015. The lease extension is currently in negotiation. The office space lease expires September 30, 2020. Rental income under these leases amounted to $146,725 during 2018. The earning stream from this agreement is included in the amounts disclosed above.

Series 2009A Revenue Bonds

On December 8, 2009, ACWWA issued $91,545,000 in Taxable Water and Wastewater Revenue Direct Pay Build America Bonds (BAB) with interest rates ranging from 3.61% to 6.68%. The revenue refunding and improvement bonds are due in annual principal and interest installments of $5,516,894 to $15,804,642 until December 2039. ACWWA is eligible to receive a 35% interest subsidy credit on its interest payments for these bonds subject to Section 6431 of the Internal Revenue Code. To receive BAB credits, ACWWA must file a form 8038-CP between 45 and 90 days prior to the corresponding interest payment date. Such credits, if received by ACWWA, are required under the bond resolution to be deposited to the Build America Bond Interest account of the Build America Bond Fund. There is no assurance, however, that ACWWA will receive all or any of the BAB credits which it expects to receive. ACWWA will be required to pay interest on the 2009A bonds regardless of whether BAB payments are received or not. ACWWA received interest subsidies in the amount of $1,817,124 during 2018. In accordance with the Trust Indenture, as of December 31, 2018, $7,121,420 was held in reserves.

Series 2012 Revenue Refunding Loan

On October 18, 2012, ACWWA refunded the Series 2009B Revenue Bonds and entered into a loan agreement with Colorado State Bank and Trust, dated October 18, 2012, in the amount of $5,525,000. Principal and interest payments are due June 1 and December 1 in varying amounts through December 1, 2022, with a fixed interest rate of 2.17%. In accordance with the Trust Indenture, as of December 31, 2018, $553,453 was held in reserves.

Series 2016 Revenue Refunding Bonds

On October 4, 2016, ACWWA issued $16,475,000 of Revenue Refunding Bonds. Series 2016, with interest rates ranging from 2.00% to 4.00% to refund the outstanding Refunding Bonds, Series 2006. As a result, the 2006 bonds have been removed from ACWWA’s liabilities. The purpose of this refunding was to reduce its total debt service payments over the next six years by $3,392,816 and to realize an economic gain of $3,040,287. Principal and interest are due June 1 and December 1 in varying amounts through December 1, 2033.
Series 2017 Revenue Refunding Bonds

On August 22, 2017, ACWWA issued $12,720,000 of Revenue Refunding Bonds, Series 2017, with interest rates ranging from 2.00% to 4.00% to refund the outstanding Refunding Bonds, Series 2007. As a result, the 2007 refunding bonds are considered to be defeased, and the related liabilities for the Series 2007 bonds have been removed from ACWWA’s liabilities. The purpose of this refunding was to reduce its total debt service payments over the term of the bonds by $2,440,100 and to realize an economic gain of $2,345,844. Principal and interest are due June 1 and December 1 in varying amounts through December 1, 2033.

Pledged Revenue and Debt Coverage Requirements

Over the years, ACWWA has issued revenue bonds with certain pledged revenues as collateral, certain debt coverage requirements, and various covenants in which ACWWA’s management believes that ACWWA is in compliance.

ACWWA’s long-term liabilities will mature as follows:

Rent expense for 2018 was $165,309.
NOTE 13: SELF-INSURANCE PLANS

Self-Insurance Liability Plan - In 1982, Arapahoe County established a self-insurance plan to provide liability and property coverage for County assets and operations. The plan is administered by the County. When appropriate, the County utilizes third-party consultants and attorneys to handle bodily injury claims and certain other claims. Excess insurance is maintained that limits the County’s liability to certain levels depending on the nature of the claim. The Plan is not part of a public entity risk pool. The estimated liability claims were determined by an actuarial analysis of current claims and an estimate of incurred but not reported (IBNR) claims at December 31, 2018. This plan is an internal service fund.

Self-Insurance Worker’s Compensation Plan – In 1990, the County established a self-insurance plan to pay losses from worker’s compensation claims. The County administers the plan; however, the County utilizes third-party consultants, attorneys and service providers in the administration of the plan. Excess insurance coverage is maintained to limit the loss of any individual claim. The plan assesses other funds for estimates of current claims based on historical claims. The Plan is not part of a public entity risk pool. The estimated claim liability at December 31, 2018 was determined by an actuarial analysis. The actuarial analysis includes estimated costs of known claims and estimates of incurred but not reported (IBNR) claims. This plan is an internal service fund.

Self-Insurance Dental Plan - This fund was originally established on January 1, 1986, and included both medical and dental plans. A decision was made in 1991 to discontinue the County plan for medical insurance effective January 1, 1992. The County continued the self-insured dental plan. The County’s Human Resource Department administers the Self-Insurance Dental Plan; however, the County utilizes a third-party consultant to assist with administrating the Plan. Dental claims, as well as administrative costs, are paid directly out of this fund, which is funded by contributions made by the County and its employees. All claims are reviewed and approved for payment by Delta Dental, in accordance with their administrative services agreement with the County. The County's plan is fully self-insured with the County assuming all liability risks. The Plan is not part of a public entity risk pool. The estimated claim liability at December 31, 2018 was determined by an actuarial analysis. The actuarial analysis includes estimated costs of known claims and estimates of incurred but not reported (IBNR) claims. This plan is an internal service fund.

The County employs a full-time Risk Manager to oversee all aspects of the County’s insurance needs and to assess the County’s potential liabilities. The following table displays the change in the balances of the claims liabilities:

Unpaid claim estimates do not include non-incremental claim adjustment expenses. Claims have not exceeded the County’s insurance coverage for the previous three years.
NOTE 14: RETIREMENT PLAN

Plan Description

The Arapahoe County Retirement Plan (the Plan) is a single employer-defined benefit pension plan established by the Arapahoe County Board of County Commissioners to provide pension benefits for its employees. The Plan is administered by the Arapahoe County Retirement Board, which consists of five people: the Arapahoe County Treasurer, two Plan members elected by the Plan members, and two Arapahoe County citizens appointed by the Board of County Commissioners.

The Plan provides retirement benefits for employees. Substantially all of the general employees of the County are covered under the Plan. The benefits are determined by the Retirement Plan Board. The Plan has three tiers of benefits, based on when an employee was hired. The minimum age for retirement with full benefits has increased from 52 under Tier 1 to 60 under Tier 3. This minimum age applies if you meet certain age and years of service requirements. Tier 1 employees must meet the Rule of 75, Tier 2 the Rule of 80 and Tier 3 the Rule of 85. The benefit multiplier has decreased from 2.5% per number of years of service in Tier 1 to 2.0% per number of years of service in Tier 3. Beginning January 1, 2014 all employees in all Tiers earn future benefits based on a multiplier of 1.85%. This does not change any benefits previously earned through December 31, 2013.

Plan members in Tiers 1 and 2 who terminate employment receive refunds of contributions to the Plan. Contributions made to the Plan prior to January 1, 2014 are refunded per this schedule.

<table>
<thead>
<tr>
<th>Completed years of Service</th>
<th>Percent of accumulated contributions at termination or date of application for refund, if later</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 5</td>
<td>100%</td>
</tr>
<tr>
<td>5 - 9</td>
<td>125%</td>
</tr>
<tr>
<td>10 - 14</td>
<td>150%</td>
</tr>
<tr>
<td>15 or more</td>
<td>200%</td>
</tr>
</tbody>
</table>

Any contributions made to the Plan after December 31, 2013 are only refunded at 100% plus interest. Alternatively, members who terminate employment prior to retirement can elect to receive a deferred retirement benefit equal to the vested portion of benefits earned to the date of termination. Vesting is as follows:

<table>
<thead>
<tr>
<th>Completed years of credited services</th>
<th>Percentage of earned benefits vested</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 4</td>
<td>0%</td>
</tr>
<tr>
<td>4</td>
<td>60%</td>
</tr>
<tr>
<td>5</td>
<td>70%</td>
</tr>
<tr>
<td>6</td>
<td>80%</td>
</tr>
<tr>
<td>7</td>
<td>90%</td>
</tr>
<tr>
<td>8 or more</td>
<td>100%</td>
</tr>
</tbody>
</table>

For elected officials who are not re-elected or re-employed at the end of their term, earned benefits are 100% vested.

Employees who are hired, appointed or elected on or after July 1, 2010 (Tier 3), who terminate their employment prior to retirement, can elect to receive their contributions and the interest earned on their contributions only. They are not eligible to receive any county contribution or interest earned on county contributions.

Alternatively, members who terminate employment prior to retirement can elect to receive a deferred retirement benefit equal to the vested portion of benefits earned to the date of termination. Vesting is as follows:
Completed years of credited services | Percentage of earned benefits vested
--- | ---
Less than 8 | 0%
8 or more | 100%

Benefit provision changes are made by the Arapahoe County Retirement Board, which was established under the authority of Colorado Revised Statutes 24-54-107.

The Plan issues a complete stand-alone set of financial statements that meet all the reporting requirements of US GAAP. These financial statements are publicly available and may be obtained at: Arapahoe County Retirement Plan, 6984 S. Lima Street, Suite B, Centennial, Colorado 80111 or at the following web address: http://acgret.org.

Plan Summary of Significant Accounting Policies

The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The government’s contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Plan’s investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Investments that do not have an established market value are reported at estimated fair value. The fair values of real estate and alternative investments (hedge fund of funds, private equity) are based on independent appraisals of properties owned and valuation of assets in the various investment funds. As a result, unrealized gains and losses are recognized in the financial statements at the time of market fluctuation. Investment income is recognized as earned. Gains and losses on sales and exchanges of securities are recognized on the transaction date.

Employees Covered by Benefit Terms

At December 31, 2018, the following employees were covered by the benefit terms:

- Retirees and beneficiaries: 1,018
- Inactive, Nonretired members: 253
- Active employees: 2,044

Contributions

The contribution requirements of plan members are established by the Retirement Board in agreement with the Board of County Commissioners, which established the employer contribution. The employer must at least match the contribution of the employee. Both parties of this plan contribute the same percentage. Effective January 1, 2018, the contribution rate for employee/employer contributions was 8.25%. Pension liabilities are generally liquidated through the same funds where the payroll expenditures are recorded.

Net Pension Liability

The County has elected a measurement date for the current year-end as of the prior year-end. Therefore, the net pension liability as of December 31, 2018 was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of January 1, 2018.

Mortality rates use the RP-2014 and RP-2014 Disabled Mortality Table, projected with scale MP-2016.

Assumptions shown above are for January 1, 2018 (used to determine 2018 Actuarial Determined Contribution).

Single Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current scheduled contribution rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments on current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Investments

All investment information disclosed in the Plan’s financial statements, including investments held at December 31, 2018 and net appreciation in fair value of investments, interest, dividends for the years ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by U.S. Bank, the trustee of the Plan.

The Retirement Board of the Plan has sole discretion over the investments of the Plan within the guidelines established by state statutes. The Plan contracts with investment managers to manage substantially all of the Plan’s investments. U.S. Bank holds the Plan’s investments under a trust agreement with the Plan.

**Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate risk exposure is dictated by each manager’s agreement. Each portfolio is managed in accordance with investment guidelines as stated in the Plan’s investment policy. As of December 31, 2018, the Plan held the following fixed income investments:
Investments in money market funds in the Operating Account of $6,013,367 at December 31, 2018 are available for withdrawal daily.

**Custodial Credit Risk** - Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Plan has no formal policy for custodial credit risk. Certain externally managed pools participate in security lending transactions, repurchase agreements and over-the-counter transactions. These transactions may indirectly subject the Plan to the risk of loss due to nonperformance by the counterparty to the agreement.

**Credit Risk** - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the Plan. Credit risk exposure is managed in accordance with investment guidelines as stated in the formal investment policy adopted by the plan. As per Section 24-54-112 of the Colorado Revised Statutes (C.R.S.), the Plan assets will be invested using the “Colorado Uniform Prudent Investor Act” found in the provisions of Part 3 of Article 1 of Title 15, C.R.S. The Plan assets shall be invested and managed as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances. In satisfying this standard, all fiduciaries shall exercise reasonable care, skill and caution. Investment decisions should be evaluated within the context of the entire portfolio, rather than on an individual investment basis, and as part of an overall investment strategy having risk and return objectives reasonably suited to the Plan's purpose. The Plan does not own any derivative investments.

The following is a summary of the Plan’s fixed income investments at December 31, 2018 with average credit ratings based on Standard & Poor’s rating scale:

</tbody>
</table>
Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. The Plan does not have a policy that addresses limitations on the amount that can be invested in any one issuer. There is no formal policy for concentration of credit risk for the international equity and real estate investment managers.

The following presents investments that represent five percent or more of the Plan's investments as of December 31, 2018:

<table>

Foreign Currency Risk - Foreign currency risk is defined as any deposits or investments that are denominated in foreign currencies, which bear a potential risk of loss arising from changes in currency exchange rates. The Plan has no direct holdings which give rise to foreign currency risk. However, some of the externally managed funds have investments which are denominated in foreign currencies.

Liquidity Risk - Certain investments, such as those in the hedge fund of funds, and real estate funds may have limited transferability and restrictions on when investments may be redeemed.

Off Balance Sheet Risk - Through its holdings in externally managed investment pools, the Plan’s money managers have entered into various contracts which contain off balance sheet risk. These include future contracts, short sales, hedging and arbitrage transactions, option contracts, swap options and various swap contracts.

Rates of Returns - Certain investments contractually include specific investment returns to classes of investors which may not approximate the ownership percentages of these investments and may affect the timing and amount of investment returns of the plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected return, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For each major asset class that is included in the pension plan’s target asset allocation as of January 1, 2018, recent best estimates as supplied by the investment consultant are summarized in the following table:

<table>
<thead>
<tr>

NOTE 15: **CONTINGENCIES**

The County is currently named in numerous lawsuits. In the opinion of the County Attorney, none of the current litigation is expected to result in a material liability or have a material impact on the County's financial position. The excess insurance coverage available in the self-insurance liability plan also limits potential liability for the County.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the state government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTE 16: **TAX SPENDING AND DEBT LIMITATIONS**

The 1992 amendment to Article X, Section 20 of the State Constitution, the Taxpayer's Bill of Rights (TABOR), limits the revenue raising and spending abilities of the State and local governments. It prohibits any increase in the mill levy without a vote of the citizens, requires any revenue collected in excess of the fiscal year spending limit to be refunded in the following year, and requires the establishment of an "emergency reserve" equal to 3% of fiscal year expenditures.

The County's financial activity provides the basis for calculation of the limitations, which is adjusted for allowable increases tied to inflation and local growth of assessed value of new construction.

The Amendment excludes enterprises from its provisions. Enterprises are defined as government-owned businesses that are authorized to issue their own revenue bonds and that receive less than 10% of their annual revenue from all state and local governments combined. The County is of the opinion that the following component units are enterprises...
and, therefore, qualify for this exclusion: Arapahoe County Water & Wastewater Authority, Arapahoe County Public Airport Authority, and the Arapahoe County E-911 Authority.

Additionally, the Employee Flexible Benefit Fund, Self-Insurance Dental Plan, Conservation Trust Fund, Retirement Trust Fund, and the Treasurer's Agency Fund have been excluded from the compliance calculation. These funds have been excluded from the compliance calculation since these funds exist for the employees’ benefit, have been excluded from the calculation by the Amendment, and/or have been excluded by a Colorado Supreme Court decision.

Fiscal year spending is defined by the TABOR Amendment as "all district expenditures and reserve increases except, as to both, those for refunds made in the current or next fiscal year or those from gifts, federal funds, collections for another government, pension contributions by employees, and pension fund earnings, reserve transfers or expenditures, damage awards or property sales." In effect, it has been generally interpreted that fiscal year spending is non-exempt revenue. Calculations have been made that show that the County and the non-exempt component units have not exceeded the fiscal year limits imposed by the Amendment.

The Amendment requires, with certain exceptions, voter approval prior to imposing new taxes, increasing tax rates, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government. The County levied 16.973 mills as the base mill levy in 1997, but permanently reduced it to 15.821 mills in 1998.

Emergency reserves at or in excess of three percent of calculated fiscal year spending have been established and presented as a restriction of fund balance for the County and for the non-exempt component units. The Board of County Commissioners designates another 8.0% of the current year’s initial adopted operational budget for emergency purposes.

Based upon Arapahoe County’s interpretation of the above Amendment, the County believes it falls within the TABOR limits for 2018.

NOTE 17: CONDUIT DEBT

The Colorado County and Municipality Development Revenue Bond Act, Article 3, Title 29 of Colorado Revised Statutes, 1973, authorizes municipalities to finance one or more projects to promote industry, trade or other economic activity to further the economic health of the County. The Act further authorizes the County to enter into financial agreements with others to provide revenue to pay the bonds authorized and issued and to secure the payment of such bonds.

Periodically, under the above Act, the County issues industrial revenue bonds, single-family mortgage revenue bonds, multi-family mortgage revenue bonds, construction loan revenue bonds and special obligation revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of private, industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The County is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2018, the aggregate principal amount payable for the bonds is $55,392,059.
### NOTE 18: NONSPENDABLE, RESTRICTED, AND UNRESTRICTED FUND BALANCE

Nonspendable, restricted, committed, and assigned fund balances of the governmental funds consist of the following:

## NOTE 19: EXPLANATION OF DIFFERENCES BETWEEN REVENUES, EXPENDITURES AND OTHER FINANCING SOURCES (USES) FOR THE GENERAL FUND BUDGETARY COMPARISON SCHEDULE AND THE GENERAL FUND AS REPORTED IN THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE

As part of the County’s implementation of GASB Statement No. 54 (see Note 1, Fund Equity), certain special revenue funds reported in the years prior to December 31, 2011 no longer qualify as special revenue funds, and have been combined with the General Fund for reporting purposes. In accordance with GASB Statement No. 41, Budgetary Comparison Schedules – Perspective Differences, the activity of such funds is not included in the General Fund budgetary comparison schedule. The following is a reconciliation of the General Fund budgetary comparison schedule to the General Fund as reported in the Statement of Revenues, Expenditures and Changes in Fund Balance for the year ended December 31, 2018:

<table>

NOTE 20: TAX ABATEMENTS

Arapahoe County enters into personal property tax abatements with local businesses with authority under Colorado Revised Statute Sec. 30-11-123. Under the Statute, the County may negotiate an incentive payment or credit with any taxpayer who establishes a new business facility within the County to stimulate economic development. This payment or credit may not exceed the amount of personal property taxes levied by the County and is contingent upon appropriated funding in the annual budget. In the event of default by the taxpayer, the maximum amount recoverable by the County is the amount of incentive payments paid to the taxpayer under the agreement.

For fiscal year ended December 31, 2018, the County abated personal property taxes totaling $57,840 under this program, including the following agreements that each exceeded 10 percent of the total amount abated:

- Company A LLC: A 100 percent rebate of the personal property taxes paid to the County, for five years beginning with the 2015 tax year, for an expansion which constitutes a new business facility located in Greenwood Village, CO. Because taxes are abated after the qualifying steps have been taken, there are no provisions for recapturing abated taxes. The rebated amount to Company A, LLC during fiscal year 2018 totaled $10,254.

- Company B LLC: A 50 percent rebate of the personal property taxes paid to the County, for five years beginning with the 2015 tax year, for an expansion which constitutes a new business facility located in Aurora, CO. The provision for recapturing the abated taxes is only in the event of a default. The rebated amount to Company B, LLC during fiscal year 2018 totaled $6,240.

- Company C Inc.: A 50 percent rebate of the personal property taxes paid to the County, for 10 years beginning with the 2010 tax year, for an expansion which constitutes a new businesses facility located in Englewood, CO. Also, a 100 percent rebate of the personal property taxes paid to the County, for 10 years beginning with the 2015 tax year, for a new business facility located in Englewood, CO. The provision for recapturing the abated taxes is only in the event of a default. The rebated amount to Company C, Inc. for both agreements during fiscal year 2018 totaled $28,216.

- Company D LLC: A 100 percent rebate of personal property taxes paid to the County, for five years beginning in the 2016 tax year, for an expansion which constitutes a new business facility located in Englewood, CO. Because taxes are abated after the qualifying steps have been taken, there are no provisions for recapturing abated taxes. The rebated amount to Company D, LLC during fiscal year 2018 totaled $6,156.

Notes to schedule:

Valuation date:
Actuarially determined contribution rates are calculated as of January 1.

Methods and assumptions used to determine contribution rates:

- **Actuarial cost method**: Entry age normal
- **Amortization method**: Level percentage of payroll, open
- **Remaining amortization period**: 20 years
- **Asset valuation method**: 5-year smoothed market
- **Inflation**: 2.50%
- **Salary increases**: Age-based: 3.40% to 6.75%
- **Investment rate of return**: 7.25%
- **Retirement age**: Age-based with consideration for eligibility for special early retirement
- **Mortality**: Healthy: RP-2014 Tables adjusted backward to 2006 with MP-2014; White Collar/Blue Collar Adjustment projected with MP-2016
  Disabled: RP-2014 Disabled Mortality Table adjusted backward with MP-2014; projected with Scale MP-2016

D-2
SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenue sources that are restricted, committed, or assigned to expenditures for particular purposes. The County’s Nonmajor Special Revenue Funds include the following:

Electronic Filing Technology Fund – This fund, which began on September 1, 2002, is used to account for a surcharge on recording fees to be used by the Clerk and Recorder to acquire technology to accept electronic filings.

Cash-in-Lieu Fund – This fund is used to account for monies received in lieu of land to be dedicated for parks and other public purposes. Pursuant to Colorado State Statute (Section 30-28-133(4), C.R.S.) and Arapahoe County subdivision regulations, each land subdivider must provide to the County a minimum of 10% of the total gross acreage of the subdivision or a sum of money equal to a minimum of 10% of the current market value of the total zoned (but unimproved) land; or a combination of land or money equal to the total 10% requirement. All funds are limited to use for public improvements.

Law Enforcement Authority Fund – This fund is used to account for the operations of law enforcement services in the unincorporated area of Arapahoe County. Most of the financing is provided by property tax revenue.

Arapahoe/Douglas Works! Fund – This fund is used by the Arapahoe/Douglas Works! Division of the Community Resources Department. The revenue in this fund originates as Federal funds, with the State acting as a pass-through agency. The Federal funds sources include the Workforce Investment Act (WIA), Temporary Assistance to Needy Families program, the Wagner Peyser Act and the Employment First Act. The purpose of this fund is to provide services to adults and youth wishing to enter the labor market. Services include basic and occupational skill assessments, workshops, tuition reimbursement for training, bus passes, career counseling and job placement. Arapahoe/Douglas Works! also partners with community based organizations, educational institutions and the business community to act as a bridge between job seekers and employers.

Road and Bridge Fund – Required by Colorado state law, this fund accounts for the design, construction, and maintenance of transportation infrastructure within the County. Revenues for this fund are primarily from property tax, highway user tax, and specific ownership tax, with use restrictions imposed by state statute.

Conservation Trust Fund – This fund accounts for revenue received from State lottery proceeds to be used for conservation programs, including the acquisition, development, and maintenance of parks and other public recreational facilities within the County. Lottery funds disbursed to counties on a per capita basis.

Contingent Fund – This fund is used to account for the expenditure of monies set aside for emergencies. These funds can be authorized only for (1) an act of God; (2) use against public enemies; or (3) something "which could not have been reasonably foreseen at the time of adoption of the budget". The expenditure resolution must be adopted by a 2/3 vote of the governing body and must clearly be an "emergency" use of the funds. Colorado counties are authorized by state law (Section 30-25-107 C.R.S.) to maintain a contingency fund.

Communications Network Replacement Fund – This fund was established in 1994 by an intergovernmental agreement with the City of Greenwood Village. The purpose of the fund is to provide funding for a future replacement of the County Radio Communication System.

Sheriff Commissary Fund – This fund includes the Detention Facility's commissary operations, the inmate industries program, and the ADMIT (Arapahoe Diverts the Mentally Ill for Treatment) program. The fund’s revenue is generated from commissary sales such as fees for barber services, telephone charges, and inmate industry operations. The fund’s expenditures are primarily related to inmate services such as counseling, educational and rehabilitation programs, and library services.
Community Development Fund – This fund is used to account for the Community Development Block Grant. The grant is used to improve housing conditions for low/moderate-income people.

Forfeited Property Fund – This fund is used to account for funds received from drug-related seizures, forfeitures and restitution. State law restricts spending in this fund to law enforcement activities.

Developmental Disabilities Fund – This fund is used to account for revenues derived from a 1.000 mill levy approved by the voters to be used in providing services for residents with developmental disabilities in Arapahoe County.

Grants Fund – This fund is used to account for revenues and expenditures of programs funded by federal, state, and/or local grant awards.

Homeland Security Grant Fund – This fund is used to account for the receipt and disbursement of grant funds distributed through the State of Colorado.

Fair Fund - This fund is to account for funds collected and disbursed for the operation of the Arapahoe County Fair.

D-13
CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources collected and used for the acquisition or construction of major capital facilities. The County’s Capital Project Funds include the following:

**Capital Expenditure Fund** – This fund is used to account for the purchase and/or construction of major capital projects. Capital projects include, but are not limited to such items as; major office remodeling, handicap improvements, building rehabilitation, roadway construction, communication systems construction, and the purchase of property. The County entered into a capital lease with JPMorgan Chase Bank, N.A., on August 12, 2014 for the expansion of the County fairgrounds. The lease agreement is in the amount of $6,720,544 and matures in 2029.

**Infrastructure Fund** – This fund is used to track construction costs of individual road, highway, and drainage projects. Revenues in this fund include; interest earnings, developer contributions, transportation improvement fees, local, state, and federal matching funds, as well as unmatched County funds. Expenditures for this fund include all county transportation, highway, road, bridges, and drainage infrastructure projects.

**Arapahoe County Recreation District Fund** – This fund is used to account for recreational facilities within a district located in the Southeast part of the urbanized area of Arapahoe County. These facilities include the Arapahoe County Community Park, the Cheyenne Arapaho Park, Welch Park, Cherry Creek Ecological Park, and various trails within the District. The District is located between I-25 and Smoky Hill Road and between I-225 and the Arapahoe-Douglas County Line. Property taxes paid by property owners that reside within the District and specific ownership tax revenues provide for day-to-day operating and maintenance costs.

**Arapahoe County Water and Wastewater Public Improvement District (PID) Fund** – The Arapahoe County Water and Wastewater Public Improvement District (PID) was formed in 2001 to construct various water and sewer facilities and to refinance the debt of the Arapahoe Water and Sanitation District. Property tax revenue for the PID is used to pay the scheduled debt service on the outstanding bonds and debt issued by the District.

DEBT SERVICE FUNDS

Debt Service Funds are used for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds. The County’s Debt Service Funds include the following:

Equipment Lease Purchase Fund – This fund is used to account for capital lease purchases. In 2018, the following leases were accounted for in this fund:

1. Fairgrounds Expansion Lease purchase agreement through JPMorgan Chase Bank, N.A. in the amount of $6,720,544 was entered into in 2014 and maturing in 2029.

2. Parkland lease purchase agreement with Zion National Bank in the amount of $2,600,000 was entered into in November 2007 and matures in 2027.

3. District Attorney Office Building lease purchase agreement with JPMorgan Chase Bank, N.A., in the amount of $5,300,000 entered into in 2008 and matured in 2018.

4. Lima Ridge lease purchase agreement with the Banc of America Public Capital Corp. in the amount of $9,650,000 entered into in 2011 and matures in 2030.

The Arapahoe County Building Finance Corporation Debt Service Fund – This fund is used to account for the transactions related to the funding of the construction of facilities that are leased to Arapahoe County Government. The Arapahoe County Building Finance Corporation (ACBFC) owns the CentrePoint Plaza Building, the Sheriff/Coroner Administration Building, and the Arapahoe County Justice Center. The ACBFC leases these facilities to the County pursuant to the terms of Certificates of Participation issued by the Corporation.

INTERNAL SERVICE FUNDS

Internal Service Funds are a type of proprietary fund used to account for any activity that provides goods and services to other funds, departments, or agencies of the primary government on a cost-reimbursement basis. The County’s Internal Service Funds include:

Central Service Fund – This fund provides an internal service function to departments within the County. Services include: office supplies, materials, gas and oil, equipment and vehicles for an intergovernmental fee.

Self Insurance Liability Fund – This fund is used to account for the County’s self-insurance program for property, liability, automobile, and the cost of insurance that is maintained in excess of the deductible limit.

Employee Flex Benefit Fund – This fund accounts for the employees’ portion of their pre-tax salaries set aside to be used for reimbursement of qualified health or dependent care expenses. The costs are paid for by interest earnings on deposited and forfeited employee contributions.

Worker’s Compensation Fund – This fund is used to account for the self-funded program that collects worker compensation monies from appropriate County funds and pays for the worker’s compensation losses in lieu of an outside agency.

Self Insurance Dental Fund – This fund is used to account for the County’s self-insured employee dental care plan, which is fully funded by premiums charged to employees and employer matching contributions.

The schedule of budgetary compliance is included to show compliance at the legal level of control as established by Arapahoe County Appropriation Resolutions, and includes all appropriations not shown elsewhere in this report. Appropriations are reported at the fund level or at the spending agency level if so designated by the resolution.

Final budget and actual totals include transfers and capital expenditures as applicable.

1) Depreciation Expense

Depreciation expense is not budgeted in the proprietary funds and is not included in the actual expense totals in the Schedule of Budgetary Compliance. Depreciation expense during 2018 is as follows:

Central Service Fund $ 4,404,778

2) Capital Expenditures

Capital expenditures are budgeted in the proprietary funds and are included in the actual expense totals in the Schedule of Budgetary Compliance. Capital expenditures for 2018 are as follows:

Central Service Fund $ 5,396,498
AGENCY FUNDS

Agency Funds are held by Arapahoe County in a custodial capacity for individuals, governmental entities, and nonpublic organizations, as established by resolution or state statute. The County’s agency funds include:

**Treasurer’s Fund** — This fund is used to account for the receipt and disbursement of all property tax revenues received by the Treasurer for the County and all other taxing entities in the County.

**Arapahoe County Public Trustee Fund** — This fund is used to account for the fiduciary activities of the Public Trustee including foreclosures and releases of deeds of trust.

**Inmate Sentencing Fund** — This fund is used to account for the receipt and disbursement of monies held on behalf of prison inmates.

**DIFFERENCES NOTED:**

- Collection Items Recorded in Revenue and Not As Offset to Expenditure: $279,308
- County Expenditures Not Recorded to County Financial Management System (CFMS): $581,824
- County Wide Cost Allocation Plan Costs Not Recorded to Fund 11: $(6,245,039)
- Fund to Fund Transfers Not Recorded to CFMS: $1,485,449
- IV-D Balance Sheet Items and Refunds: $(19,071)
- Payroll & Other Expenditure Accruals: $1,687,286

**COUNTY HUMAN SERVICES TOTALS: $63,956,855**

*** Control Totals: $174,555,811 $63,956,855

A. Human Services payments authorized by Arapahoe County, net of any refunds. These authorizations are paid by the Colorado Department of Human Services via electronic benefit cards (EBT) and electronic funds transfers (EFT).

B. The county share of Human Services payments authorized by Arapahoe County. These amounts are settled monthly by a reduction of Colorado Department of Human Services cash advances to the county, net of any refunds.

C. Expenditures made by county warrant or other county payment methods.

D. Represents the total cost of the Human Services programs that are administered by the county.

E. Reflects the county cost to administer Human Services Programs. This figure can also be found on the Social Services - Statement of Revenues, Expenditures and Changes in

*** Grand Total for column D taken from the CFMS Expenditure/Revenue-Whole Year Report "total expenditure" column. Control total for column E, was generated using the YTD Actual figure for expenditures found in the County SAP ZFM02 Budget Report. Difference between Grand Total of column E and Control Total of column E is shown in Differences Noted.

D-63
Arapahoe County, Colorado
Statistical Section Index
(Unaudited)

This part of the Arapahoe County comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the County's overall financial health.

Financial Trends
These schedules contain trend information to assist the reader in understanding how the County's financial position has changed over time.

Table 1  Net Position by Component .......................................................... E-2
Table 2  Changes in Net Position ............................................................. E-3
Table 3  Fund Balances - Governmental Funds ....................................... E-4
Table 4  Changes in Fund Balances, Governmental Funds .................. E-6

Revenue Capacity
These schedules contain information to assist the reader in assessing the County's most significant sources of revenue.

Table 5  Assessed Value and Actual Value of Taxable Property ............... E-8
Table 6  Direct and Overlapping Property Tax Rates .............................. E-9
Table 7  Principal Property Taxpayers ................................................... E-10
Table 8  Property Tax Levies and Collections ......................................... E-11

Debt Capacity
These schedules present information to assist the reader in analyzing the County's current level of debt and the County's ability to issue debt in the future.

Table 9  Ratios of Outstanding Debt by Type ......................................... E-12
Table 10  Computation of Direct and Overlapping Debt ....................... E-14
Table 11  Legal Debt Margin Information .............................................. E-16

Demographic and Economic Information
These schedules offer demographic and economic indicators to assist the reader in understanding the environment in which the County's financial activities take place.

Table 12  Demographic and Economic Statistics .................................... E-17
Table 13  Principal Employers .............................................................. E-18

Operating Information
These schedules contain service and infrastructure indicators to assist the reader in ascertaining how the information in the County's financial statements relate to the services the County provides and the activities it performs.

Table 14  Full-time Equivalent County Government Employees by Function/Program .................................. E-19
Table 15  Operating Indicators by Function/Program ........................... E-20
Table 16  Capital Assets Statistics by Function/Program ...................... E-21

Data Sources:
Arapahoe County Treasurer's Office
Arapahoe County Annual Budget

(1) Estimated calculation

**Note:** The difference between the total taxes collected shown on this schedule and the property taxes recorded on the Government-wide Statement of Activities is that the Statement of Activities line item for property taxes includes interest on current tax and property taxes collected on three blended component units not included above (Arapahoe Law Enforcement Authority, Arapahoe County Recreation District and the Arapahoe County Water and Wastewater Public Improvement District.)

INDEPENDENT AUDITORS’ REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of County Commissioners
Arapahoe County, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Arapahoe County, Colorado (the County) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements, and have issued our report thereon dated June 27, 2019. Our report includes a reference to other auditors who audited the financial statements of Arapahoe County Public Airport Authority and Arapahoe County Water and Wastewater Authority, both of which are discretely presented component units, as described in our report on the County’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Arapahoe County Water and Wastewater Authority were not audited in accordance with Government Auditing Standards.

Internal Control Over Financial Reporting
In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency, listed as reference number 2018-001.
Compliance and Other Matters
As part of obtaining reasonable assurance about whether the County’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Arapahoe County, Colorado’s Response to Findings
The County’s response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS’ REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of County Commissioners
Arapahoe County, Colorado

Report on Compliance for Each Major Federal Program
We have audited Arapahoe County, Colorado’s (the County) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the County’s major federal programs for the year ended December 31, 2018. The County’s major federal programs are identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility
Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors’ Responsibility
Our responsibility is to express an opinion on compliance for each of the County’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County’s compliance.

Opinion on Each Major Federal Program
In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2018.
Other Matters
The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2018-001. Our opinion on each major federal program is not modified with respect to these matters.

The County’s response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance
Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2018-002, which we consider to be a significant deficiency.

The County’s response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

ARAPAHOE COUNTY, COLORADO  
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
For The Year Ended December 31, 2018

Note 1 - General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the Arapahoe County, Colorado primary government (the County). The County’s reporting entity is defined in Note 1 to the County’s basic financial statements. All federal financial assistance received by the primary government directly from federal agencies, as well as federal financial assistance passed through other government agencies, including the State of Colorado, is included on the schedule.

Governmental funds account for the County’s federal grant activity. Amounts reported in the schedule of expenditures of federal awards are recognized on the modified accrual basis when they become a demand on current available federal resources and eligibility requirements are met, or on an accrual basis at the time liabilities are incurred and all eligibility requirements are met, except in the following programs, which are reported in the schedule of expenditures of federal awards on the cash basis:

Section II – Financial Statement Findings

2018 – 001

Type of Finding: Significant Deficiency in Internal Control over Financial Reporting

Condition: The County receives various revenues from the State of Colorado. Many of these revenues are recorded in the Social Services fund, while reimbursement of administrative costs from the State should be recognized in the General Fund. During the course of our audit, we noted that when the administrative cost reimbursement payment was received from the State, the county was erroneously reducing the Social Services Fund accounts receivable balance, thus improperly reducing the accounts receivable balance and did not recognize the revenue in the General Fund. As such, an adjustment was required to be posted during the audit process to correct the accounts receivable balance in the Social Services fund and record revenues in the General Fund relating to reimbursement of administrative costs from the State of Colorado. The County’s internal control processes did not previously identify this error.

Criteria: Based on the guidance in Governmental Accounting Standards Board Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions, this revenue should be recognized when the eligibility criteria was met.

Context: Prior to the adjustment noted above, the General Fund fund balance was understated by $1,347,168.

Effect: An adjustment of $1,347,168 was required to be posted to increase revenues and accounts receivable (due from the Social Services Fund) for the General Fund.

Cause: The County’s reconciliation process did not detect errors in the entries to reverse accounts receivable which resulted in the revenues and receivables in the General Fund to be understated.

Repeat Finding: This is not a repeat finding.

Recommendation: We recommend that the County improve the reconciliation process over accounts receivable to ensure that all receivables are properly recorded at the end of the fiscal year.

Views of responsible officials and planned corrective actions: The County agrees with the finding and has adjusted revenue and receivables accordingly. The County will improve the process for reviewing and approving reconciliations over accounts receivable to ensure that this error does not occur again.

Responsible Official: Janet Kennedy, Finance Director
Section III – Findings and Questioned Costs – Major Federal Programs

2018 – 002

Federal agency: U.S. Department of Health and Human Services
Federal program title: Foster Care Title IV-E
CFDA Number: 93.658
Pass-Through Agency: Colorado Department of Human Services
Award Period: Federal awards covering services provided 1/1/18 through 12/31/18

Compliance Requirement – Special Tests – Payment Rate Setting and Application
Statistically valid sample – No and not intended to be a statistically valid sample
Type of Finding: Significant Deficiency in Internal Control over Compliance and Other Matters

Criteria or specific requirement: 45 CFR section 1356.21(m)(1) requires that foster care agencies review the dollar amount of payments made for foster care maintenance at reasonable, specific, and time-limited periods, as established by the agency.

Condition: The County’s monitoring processes did not prevent or detect the payments made to a service provider without a signed agreement covering the service period.

Questioned costs: None.

Context: During testing over payment rate setting, it was noted that one payment for $6.60 out of forty payments selected for testing did not have a signed agreement setting the payment rate that covered the period when services were provided. The payment was paid at the same rate as the previously signed agreement. It was noted that total payments of $2,470 for approximately one and a half months was paid at the previously determined rate until the foster care child relocated to a different provider.

Cause: The County utilizes a system that provides automatic notifications for when foster care service provider rate agreements are about to expire, however, the system allows payments to be processed without a signed agreement covering the payment period. The County did not update the service agreement for one provider in a timely manner.

Effect: Foster care maintenance payments were processed without a signed agreement covering the service period.

Recommendation: We recommend implementing additional monitoring processes to ensure that payments are not processed to providers without a signed agreement.

Views of responsible officials: There is no disagreement with the audit finding.
ARAPAHOE COUNTY CORRECTIVE ACTION PLAN
YEAR ENDED DECEMBER 31, 2018

Arapahoe County, Colorado respectfully submits the following corrective action plan for the year ended December 31, 2018. The finding from the schedule of findings and questioned costs is discussed below. The finding is numbered consistently with the number assigned in the schedule.

FINDINGS—FINANCIAL STATEMENT AUDIT

2018-001 Revenue Recognition
Recommendation: We recommend that the County improve the reconciliation process over accounts receivable to ensure that all receivables are properly recorded at the end of the fiscal year.
Explanation of disagreement with audit finding: There is no disagreement with the audit finding.
Action taken in response to finding: The County agrees with the recommendation and has adjusted revenue and receivables accordingly. The County has implemented an updated reconciliation process for this account to ensure that this error does not occur again.
Name of the contact person responsible for corrective action: Janet Kennedy, Finance Director
Planned completion date for corrective action plan: Immediately

FINDINGS—FEDERAL AWARD PROGRAMS AUDITS

U.S. Department of Health and Human Services

2018-002 Foster Care Title IV-E – CFDA No. 93.658
Recommendation: We recommend implementing additional monitoring processes to ensure that payments are not processed to providers without an approved agreement.
Explanation of disagreement with audit finding: There is no disagreement with the audit finding.
Action taken in response to finding: The County will improve the monitoring process to ensure that payments are only processed to service providers with approved agreements.
Name of the contact person responsible for corrective action: Suzanna Dobbins, Department of Human Services Finance Division Manager
Planned completion date for corrective action plan: Immediately

MISSION
Enhancing your quality of life through exceptional delivery of services and efficient use of public funds.

F-11
Arapahoe County, Colorado respectfully submits the following summary schedule of prior audit findings for the year ended December 31, 2018.

Audit period: Year Ended December 31, 2017

FINDINGS—FINANCIAL STATEMENT AUDIT

2017 – 001 – Revenue Recognition

Type of Finding: Significant Deficiency in Internal Control over Financial Reporting

Summary: An adjustment was required to be posted during the audit process to record revenue earned in December 2017 under an intergovernmental agreement and to record the related receivable as of December 31, 2017. It was recommended that management analytically review revenue and accounts receivable at the end of the year to ensure that all accruals for receivables are properly recorded.

Status: Fully implemented.

FINDINGS—FEDERAL AWARD PROGRAMS AUDIT

There were no federal award program audit findings in the prior year.
Board Summary Report

Date: August 15, 2019

To: Board of County Commissioners

From: Michelle Halstead, Director of Communication and Administrative Services, Ron Carl, County Attorney, Janet Kennedy, Director of Finance, and Shannon Carter, Director of Open Spaces and Intergovernmental Relations

Subject: Long Range Planning Next Steps

Request and Recommendation
Staff is seeking continued guidance from the board following the August 13, 2019, long range planning committee study session. Staff will provide additional feedback from the long range planning committee on a citizen advisory committee as well as other concepts for a draft resolution as requested.

Background
In 2016, the Board of County Commissioners began the process of studying the growing needs of the county and how best to address those concerns. Reference materials of work completed to date can be viewed at http://arapahoegov.com/2050/Long-Range-Planning-Committee.

Reviewed By
John Christofferson, Deputy County Attorney
