Personal Safety Tips (Part II)

These are several simple safety tips that anyone can follow. Following these tips can reduce the chances of you becoming a victim. Being proactive is better than being reactive.

SAFETY IN YOUR CAR:

- Never leave your car running unattended
- Never leave your keys in the car or ignition
- Always roll up your windows and lock the car when parked, even if it is in front of your house
- Never leave valuables in plain view (even if your car is locked)
- Always park in busy well-lit areas
- Carry your registration and insurance card with you in a purse or wallet
- Don't leave personal identification documents or credit cards in your vehicle
- Write your VIN and license plate on a card near your driver license.

AT HOME:

- Have proper lighting around your residence
- Never keep spare keys outside the home under door mats, rocks, etc. (these are typically where criminals look first)
- If you have a key pad system, change the code frequently
- Always lock all doors and windows when away
- Sliding doors and windows should have a secondary locking device
- Check all exterior doors to make sure hinges are not located on the outside
